(the "**Issuer**"), on Eurolist by Euronext Amsterdam N.V. ("**Euronext Amsterdam**"). The Prospectus has been approved by the Netherlands Authority for the Financial Markets (*Stichting Autoriteit Financiële Markten*). The Notes are expected to be issued on 26 October 2006.

The Notes will carry a floating rate of interest, payable quarterly in arrear on each Payment Date. The rate of interest for the Notes will be three months Euribor (or, in respect of the first Interest Period, the rate which represents the linear interpolation of Euribor for one and two months deposits in euro), plus a margin per annum, which will be 0.12 per cent. for the Senior Class A Notes, 0.15 per cent. for the Mezzanine Class B Notes, 0.21 per cent. for the Mezzanine Class C Notes, 0.39 per cent. for the Junior Class D Notes and 0.70 per cent. for the Subordinated Class E Notes. On the Payment Date falling in March 2016 (the "**Step-Up Date**"), the margin of the Notes, other than the Subordinated Class E Notes, will be reset subject to and in accordance with the Terms and Conditions of the Notes (the "**Conditions**").

The Notes are scheduled to mature on the Payment Date falling in December 2038. On each Payment Date, the Notes (other than the Subordinated Class E Notes) will be subject to mandatory redemption (in whole or in part) in the circumstances set out in, and subject to, and in accordance with, the Conditions. On the Payment Date falling in December 2009 and each Payment Date thereafter the Subordinated Class E Notes will be subject to mandatory redemption (in whole or in part) in the circumstances set out in, and subject to, and in accordance with the Conditions. On the Payment Date falling in March 2016 and on each Payment Date thereafter, the Issuer will have the option to redeem all (but not some only) of the Notes, other than the Subordinated Class E Notes, at their Principal Amount Outstanding, subject to and in accordance with the Conditions. In addition, the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes will, on each Payment Date falling after the Step-Up Date, be subject to further mandatory partial redemption in the circumstances set out in, and subject to and in accordance with the Conditions.

It is a condition precedent to issuance that the Senior Class A Notes, on issue, be assigned an "AAA" rating by Standard & Poor's Rating Group ("**S&P**"), an "Aaa" rating by Moody's Investors Service Limited ("**Moody's**") and an "AAA" rating by Fitch Ratings Limited ("**Fitch**"), the Mezzanine Class B Notes, on issue, be assigned at least an "AA" rating by S&P, an "Aa1" rating by Moody's and an "AA" rating by Fitch, the Mezzanine Class C Notes, on issue, be assigned at least an "A" rating by S&P, an "Aa3" rating by Moody's and an "A" rating by Fitch, the Junior Class D Notes, on issue, be assigned at least a "BBB+" rating by S&P, an "A2" rating by Moody's and an "A-" rating by Fitch and the Subordinated Class E Notes, on issue, be assigned at least a "Baa3" rating by Moody's and a "BBB-" rating by Fitch.

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. For a discussion of some of the risks associated with an investment in the Notes, see *Risk Factors* herein.

The Notes of each Class will be initially represented by a temporary global note in bearer form (each a "**Temporary Global Note**"), without coupons, which is expected to be deposited with a common depository for Euroclear Bank S.A./N.V., as operator of the Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**") on or about the issue date thereof. Interests in each Temporary Global Note will be exchangeable for interests in a permanent global note of the relevant Class (each a "**Permanent Global Note**"), without coupons not earlier than 40 days after the Closing Date upon certification as to non-U.S. beneficial ownership. Interests in each Permanent Global Note will, in certain limited circumstances, be exchangeable for definitive notes in bearer form ("**Definitive Notes**") as described in the Conditions. The expression "**Global Notes**" means the Temporary Global Note of each Class and the Permanent Global Note of each Class and the expression "**Global Note**" means each Temporary Global Note or each Permanent Global Note, as the context may require.

The Notes will be solely the obligations of the Issuer. The Notes will not be the obligations or responsibilities of, or guaranteed by, any other entity or person, in whatever capacity acting, including, without limitation, the Seller, the Cash Advance Facility Provider, the Savings Insurance Company, the Swap Counterparty, the Administrator, the Directors, the Paying Agent, the Reference Agent, the Managers, the Floating Rate GIC Provider and the Security Trustee, in whatever capacity acting. Furthermore, none of the Seller, the Cash Advance Facility Provider, the Savings Insurance Company, the Swap Counterparty, the Administrator, the Directors, the Paying Agent, the Reference Agent, the Managers, the Floating Rate GIC Provider and the Security Trustee, nor any other person in whatever capacity acting, will accept any liability whatsoever to Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. None of the Seller, the Cash Advance Facility Provider, the Savings Insurance Company, the Swap Counterparty, the Administrator, the Directors, the Paying Agent, the Reference Agent, the Managers, the Floating Rate GIC Provider and the Security Trustee will be under any obligation whatsoever to provide additional funds to the Issuer (save in the limited circumstances described herein).

SUMMARY

This summary must be read as an introduction to this Prospectus and any decision to invest in the Notes should be based on a consideration of the Prospectus as a whole, including any amendment and supplement thereto and the documents incorporated by reference. Civil liability will only attach to the Issuer, if the summary is misleading, inaccurate or inconsistent when read together with other parts of the Prospectus. Where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Prospectus before the legal proceedings are initiated.

Capitalised terms used, but not defined, in this section can be found elsewhere in this Prospectus. For the page reference of the definitions of the capitalized terms used herein see Index of Defined Terms.

The transaction

The Issuer will purchase from the Seller the Mortgage Receivables (i.e. the rights under or in connection with certain pre-selected Mortgage Loans originated by the Seller) and will, on the Closing Date, accept the assignment of the Mortgage Receivables and the Beneficiary Rights relating thereto by means of a registered deed of assignment as a result of which legal title to the Mortgage Receivables and the Beneficiary Rights relating thereto is transferred to the Issuer. Furthermore, the Issuer will on the Closing Date issue the Notes and use the net proceeds thereof, other than the Subordinated Class E Notes, to pay to the Seller (part of) the Initial Purchase Price for the Mortgage Receivables, pursuant to the Mortgage Receivables Purchase Agreement (see further the section *Mortgage Receivables Purchase Agreement* below). The proceeds of the issue of the Subordinated Class E Notes will be credited to the Reserve Fund.

The Issuer will use receipts of principal and interest in respect of the Mortgage Receivables together with amounts it receives under the Cash Advance Facility Agreement, the Swap Agreement and the Sub-Participation Agreement and drawings made under the Reserve Fund and from the Floating Rate GIC, to make payments of, *inter alia*, principal and interest due in respect of the Notes. The obligations of the Issuer in respect of the Notes, will rank below the obligations of the Issuer in respect of certain items set forth in the applicable priority of payments (see *Credit Structure*) and the right to payment of interest and principal on the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes will be subordinated to the Senior Class A Notes and limited as more fully described herein under *Credit Structure and Terms and Conditions of the Notes*.

Pursuant to the Cash Advance Facility Agreement the Issuer will be entitled to make drawings if, after application of amounts available in the Reserve Fund and without taking into account any drawing under the Cash Advance Facility, there is a shortfall in the Interest Available Amount to meet certain items of the Interest Priority of Payments in full (see *Credit Structure* below).

Pursuant to the Floating Rate GIC, the Floating Rate GIC Provider will agree to pay a guaranteed rate of interest determined by reference to Euribor on the balance standing from time to time to the credit of the Floating Rate GIC Account (see under *Credit Structure* below).

Pursuant to the Administration Agreement, the Administrator will – *inter alia* – (i) provide administration and management services to the Issuer on a day-to-day basis in relation to the Mortgage Loans and the Mortgage Receivables, including, without limitation, the collection and recording of payments of principal, interest and other amounts in respect of the Mortgage Receivables and the implementation of arrears procedures including the enforcement of mortgage rights; (ii) communicate with the Borrowers; (iii) investigate payment delinquencies; and (iv) provide certain administration, calculation and cash management services to the Issuer (see further *Administration Agreement* and *Mortgage Administration* in *SNS Residential Mortgage Business* below).

To hedge the risk between the rate of interest to be received by the Issuer on the Mortgage Receivables and the rate of interest payable by the Issuer on the Notes, the Issuer will enter into a Swap Agreement (see under *Credit Structure* below).

Security

The Notes will be secured indirectly, through the Security Trustee, by (i) a first ranking pledge granted by the Issuer to the Security Trustee over the Mortgage Receivables and the Beneficiary Rights and (ii) a first ranking pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with (most of) the Relevant Documents.

In order to ensure the valid creation of the security rights under Netherlands law in favour of the Security Trustee, the Issuer shall undertake in the Parallel Debt Agreement to pay to the Security Trustee, by way of a parallel debt, under the same terms and conditions, an amount equal to the aggregate of all its undertakings, liabilities and obligations to the Secured Parties pursuant to the Relevant Documents.

The Trust Deed sets out the priority of the claims of the Secured Parties. For a more detailed description see *Credit Structure* and *Description of Security* below.

Interest on the Notes

The Notes will carry a floating rate of interest, payable quarterly in arrear on each Payment Date. The rate of interest for the Notes will be three months Euribor plus a margin. On the Step-Up Date, the margin of the Notes, other than the Subordinated Class E Notes, will be reset subject to and in accordance with the Conditions.

Redemption of the Notes

Unless previously redeemed, the Issuer will, subject to Condition 9(b), redeem all of the Notes at their respective Principal Amount Outstanding on the Payment Date falling in December 2038.

On each Payment Date the Issuer will be obliged to apply the Redemption Available Amount, which broadly consists of all amounts of principal received (i) as repayment or pre-payment on the Mortgage Receivables or (ii) in connection with a repurchase or sale of the Mortgage Receivables, to (partially) redeem the Notes, other than the Subordinated Class E Notes, sequentially starting with the Most Senior Class of Notes. If the Notes, other than the Subordinated Class E Notes, have not been redeemed in full on the Step-Up Date, the Issuer will furthermore be obliged to apply certain limited amounts forming part of the Interest Available Amount to (partially) redeem such Notes sequentially starting with the Most Senior Class of Notes then outstanding.

The Issuer will have the option to redeem all of the Notes, other than the Subordinated Class E Notes, but not some only, on each Optional Redemption Date at their Principal Amount Outstanding subject, in the case of the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes, to Condition 9(b). Also, the Issuer will have the option to redeem the Notes for tax reasons.

Listing

Application has been made to list the Notes on Eurolist by Euronext Amsterdam.

Rating

It is a condition precedent that the Senior Class A Notes, on issue, be assigned an "AAA" rating by S&P, an "Aaa" rating by Moody's and an "AAA" rating by Fitch, the Mezzanine Class B Notes, on issue, be assigned at least an "AA" rating by S&P, an "Aa1" rating by Moody's and an "AA" rating by Fitch, the Mezzanine Class C Notes, on issue, be assigned at least an "A" rating by S&P, an "Aa3" rating by Moody's and an "A" rating by Fitch, the Junior Class D Notes, on issue, be assigned at least a "BBB+" rating by S&P, an "A2" rating by Moody's and a "A-" rating by Fitch and the Subordinated Class E Notes, on issue, be assigned at least a "Baa3" rating by Moody's and a "BBB-" rating by Fitch.

Risk factors

There are certain factors which prospective Noteholders should take into account. These risk factors relate to, *inter alia*, the Notes such as (but not limited to) the fact that the liabilities of the Issuer under the Notes are limited recourse obligations whereby the ability of the Issuer to meet such obligations will be dependent on the receipt by it of funds under the Mortgage Receivables, the proceeds of the sale of any Mortgage Receivables and the receipt by it of other funds. Despite certain facilities, there

remains a credit risk, liquidity risk, prepayment risk, maturity risk and interest rate risk relating to the Notes. Moreover, there are certain structural and legal risks relating to the Mortgage Receivables (see *Risk Factors* below).

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risk associated with the Notes are also described below. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

RISK FACTORS REGARDING THE ISSUER

The Notes will be solely the obligations of the Issuer

The Notes will be solely the obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any other entity or person, in whatever capacity acting, including, without limitation, the Seller, the Cash Advance Facility Provider, the Savings Insurance Company, the Swap Counterparty, the Administrator, the Directors, the Paying Agent, the Reference Agent, the Managers, the Floating Rate GIC Provider and the Security Trustee, in whatever capacity acting. Furthermore, none of the Seller, the Cash Advance Facility Provider, the Savings Insurance Company, the Swap Counterparty, the Administrator, the Directors, the Paying Agent, the Reference Agent, the Managers, the Floating Rate GIC Provider and the Security Trustee, nor any other person in whatever capacity acting, will accept any liability whatsoever to Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. None of the Seller, the Cash Advance Facility Provider, the Savings Insurance Company, the Swap Counterparty, the Administrator, the Directors, the Paying Agent, the Reference Agent, the Managers, the Floating Rate GIC Provider and the Security Trustee will be under any obligation whatsoever to provide additional funds to the Issuer (save in the limited circumstances described herein).

The Issuer has limited resources available to meet its obligations

The ability of the Issuer to meet its obligations in full to pay principal of and interest on the Notes will be dependent on the receipt by it of funds under the Mortgage Receivables, the proceeds of the sale of any Mortgage Receivables, the receipt by it of payments under the Swap Agreement and the receipt by it of interest in respect of the balance standing to the credit of the Floating Rate GIC Account. See further *Credit Structure* below. In addition, the Issuer will have available to it the balance standing to the credit of the Reserve Fund and the amounts available to be drawn under the Cash Advance Facility for certain of its payment obligations.

The Issuer has counterparty risk exposure

Counterparties to the Issuer may not perform their obligations under the Relevant Documents, which may result in the Issuer not being able to meet its obligations under the Notes. It should be noted that there is a risk that (a) SNS Bank N.V. in its capacity as Seller, Administrator, Floating Rate GIC Provider, Swap Counterparty and Cash Advance Facility Provider will not meet its obligations vis-à-vis the Issuer, (b) ABN AMRO Bank N.V. as Paying Agent and Reference Agent will not perform its obligations under the Paying Agency Agreement, (c) REAAL Levensverzekeringen N.V. as Savings Insurance Company will not perform its obligations under the Sub-Participation Agreement and (d) N.V. Algemeen Nederlands Trustkantoor ANT, ATC Management B.V. and ATC Corporate Services (Netherlands) B.V. will not perform their obligations under the relevant Management Agreements.

Effectiveness of the rights of pledge to the Security Trustee in case of insolvency of the Issuer

Under or pursuant to the Pledge Agreements, various rights of pledge will be granted by the Issuer to the Security Trustee. On the basis of these pledges the Security Trustee can exercise the rights afforded by Netherlands law to pledgees as if there were no bankruptcy or suspension of payments of the Issuer. The Issuer is a special purpose vehicle and is therefore unlikely to become insolvent. However, any bankruptcy or suspension of payments involving the Issuer would affect the position of the Security

Trustee as pledgee in some respects, the most important of which are: (i) payments made by the Issuer to the Security Trustee prior to notification but after bankruptcy or suspension of payments will be part of the bankruptcy estate of the Issuer, although the Security Trustee has the right to receive such amounts by preference after deduction of certain costs, (ii) a mandatory 'cool-off' period of up to four months may apply in case of bankruptcy or suspension of payments involving the Issuer, which, if applicable would delay the exercise of the right of pledge on the Mortgage Receivables and (iii) the Security Trustee may be obliged to enforce its right of pledge within a reasonable period following bankruptcy as determined by the judge-commissioner ("*rechter-commissaris*") appointed by the court in case of bankruptcy of the Issuer.

To the extent the receivables pledged by the Issuer to the Security Trustee are future receivables, the right of pledge on such future receivable cannot be invoked against the estate of the Issuer, if such future receivable comes into existence after the Issuer has been declared bankrupt, has been granted a suspension of payments or has become subject to emergency regulations. The Issuer has been advised that the assets pledged to the Security Trustee under the Security Trustee Assets Pledge Agreement should probably be regarded as future receivables. This would for example apply to amounts paid to the Floating Rate GIC Account following the Issuer's bankruptcy or suspension of payments.

Risks related to the creation of pledges on the basis of the Parallel Debt

Under Netherlands law it is uncertain whether a security right can be validly created in favour of a party which is not the creditor of the claim which the security right purports to secure. Consequently, in order to secure the valid creation of the pledges under the Pledge Agreements in favour of the Security Trustee, the Issuer has in the Parallel Debt Agreement, as a separate and independent obligation, by way of parallel debt, undertaken to pay to the Security Trustee amounts equal to the amounts due by it to the Secured Parties. There is no statutory law or case law available on the concept of parallel debts such as the Parallel Debt and the question whether a parallel debt constitutes a valid basis for the creation of security rights, such as rights of pledge (see also *Description of Security* below). However, the Issuer has been advised that a parallel debt, such as the Parallel Debt, creates a claim of the Security Trustee thereunder which can be validly secured by a right of pledge such as the rights of pledge created by the Security Trustee Receivables Pledge Agreement and the Security Trustee Asset Pledge Agreement.

Any payments in respect of the Parallel Debt and any proceeds received by the Security Trustee are, in the case of an insolvency of the Security Trustee, not separated from the Security Trustee's other assets. The Secured Parties therefore have a credit risk on the Security Trustee.

License requirement under the Financial Services Act

Under the Financial Services Act ("*Wet financiële dienstverlening*"), which entered into force on 1 January 2006, a special purpose vehicle which services ("*beheert*") and administers ("*uitvoert*") loans granted to consumers, such as the Issuer, must have a license under that Act. An exemption from the license requirement is available, if the special purpose vehicle outsources the servicing of the loans and the administration thereof to an entity holding a license under the Financial Services Act. The Issuer has outsourced the servicing and administration of the Mortgage Loans to the Administrator. The Administrator holds a license under the Financial Services Act and the Issuer thus benefits from the exemption. However, if the Administration Agreement is terminated, the Issuer will need to outsource the servicing and administration of the Mortgage Loans to another licensed entity or it needs to apply for and hold a license itself. In the latter case, the Issuer will have to comply with the applicable requirements under the Financial Services Act. If the Administration Agreement is terminated and the Issuer has not outsourced the servicing and administration of the Mortgage Loans to a licensed entity and, in such case, it will not hold a license itself, the Issuer will have to terminate its activities and settle ("*afwickelen*") its existing agreements.

Risk related to the termination of the Swap Agreement

The Swap Counterparty will be obliged to make payments under the Swap Agreement without any withholding or deduction of taxes unless required by law. If any such withholding or deduction is required by law, the Swap Counterparty will be required to pay such additional amount as is necessary to ensure that the net amount actually received by the Issuer will equal the full amount that the Issuer would have received had no such withholding or deduction been required. The Swap Agreement will

provide, however, that if due to (i) action taken by a relevant taxing authority or brought in a court of competent jurisdiction, or (ii) any change in tax law, in both cases after the date of the Swap Agreement, the Swap Counterparty will, or there is a substantial likelihood that it will, be required to pay to the Issuer additional amounts for or on account of tax (a "**Tax Event**"), the Swap Counterparty may (with the consent of the Issuer, S&P and Fitch) transfer its rights and obligations to another of its offices, branches or affiliates to avoid the relevant Tax Event. If the Swap Counterparty is unable to transfer its rights and obligations under the Swap Agreement to another office, branch or affiliate, it will have the right to terminate the Swap Agreement. Upon such termination, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other party.

The Swap Agreement will be terminable by one party if- *inter alia*- (i) an event of default (as defined therein) occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the Swap Agreement or (iii) an Enforcement Notice is served. Events of default under the Swap Agreement in relation to the Issuer will be limited to (i) non-payment under the Swap Agreement and (ii) insolvency events. If the Swap Agreement terminates the Issuer will be exposed to changes in the relevant rates of interest. As a result, unless a replacement swap is entered into, the Issuer may have insufficient funds to make payments under the Notes.

RISK FACTORS REGARDING THE MORTGAGE RECEIVABLES

Risk related to payments received by the Seller prior to notification of the assignment to the Issuer

Under Netherlands law, assignment of the legal title of claims, such as the Mortgage Receivables, can be effectuated by means of a notarial deed of assignment or a deed of assignment and registration thereof with the appropriate tax authorities, without notification of the assignment to the debtors being required ("*stille cessie*"). The legal title of the Mortgage Receivables will be assigned on the Closing Date by the Seller to the Issuer through a deed of assignment and registration thereof with the appropriate tax authorities. The Mortgage Receivables Purchase Agreement will provide that the assignment of the Mortgage Receivables by the Seller to the Issuer will not be notified by the Seller or, as the case may be, the Issuer to the Borrowers except if certain events occur. For a description of these notification events reference is made to the section *Mortgage Receivables Purchase Agreement*.

Until notification of the assignment has been made to the Borrowers, the Borrowers under the Mortgage Receivables can only validly pay to the Seller in order to fully discharge their payment obligations ("*bevrijdend betalen*") in respect thereof. The Seller has undertaken in the Mortgage Receivables Purchase Agreement to pay on each Mortgage Payment Date to the Issuer any amounts received in respect of the Mortgage Receivables during the immediately preceding Mortgage Calculation Period. However, receipt of such amounts by the Issuer is subject to the Seller actually making such payments. If the Seller is declared bankrupt or subject to emergency regulations prior to making such payments, the Issuer has no right of any preference in respect of such amounts.

Payments made by Borrowers to the Seller prior to notification but after bankruptcy or emergency regulations in respect of the Seller having been declared will be part of the Seller's bankruptcy estate. In respect of these payments, the Issuer will be a creditor of the estate ("*boedelschuldeiser*") and will receive payment prior to (unsecured) creditors with ordinary claims, but after preferred creditors of the estate.

Set-off by Borrowers may affect the proceeds under the Mortgage Receivables

Under Netherlands law a debtor has a right of set-off if it has a claim that is due and payable by a certain counterparty which corresponds to a debt that is due and payable to such counterparty. Subject to these requirements being met, each Borrower will be entitled to set off amounts due by the Seller to it (if any) with amounts it owes in respect of the Mortgage Receivable prior to notification of the assignment of the Mortgage Receivable to the Issuer having been made. Such amounts due and payable by the Seller to a Borrower could, *inter alia*, result from current account balances or deposits made with the Seller. As a result of the set-off of amounts due and payable by the Seller to the Borrower with amounts the Borrower owes in respect of the Mortgage Receivable, the Mortgage Receivable will, partially or fully, be extinguished ("*gaat teniet*"). Set-off by Borrowers could thus lead to losses under the Notes.

The conditions applicable to the Mortgage Loans provide that payments by the Borrowers should be made without set-off. Although this clause is intended as a waiver by the Borrowers of their set-off rights vis-à-vis the Seller, under Netherlands law it is uncertain whether such waiver will be valid. Should such waiver be invalid, the Borrowers will have the set-off rights described in this paragraph.

After assignment of the Mortgage Receivables to the Issuer and notification thereof to a Borrower, such Borrower will also have set-off rights vis-à-vis the Issuer, provided that the legal requirements for set-off are met (see above), and further provided that (i) the counterclaim of the Borrower results from the same legal relationship as the relevant Mortgage Receivable, or (ii) the counterclaim of the Borrower has been originated and become due and payable prior to the assignment of the Mortgage Receivable and notification thereof to the relevant Borrower. The question whether a court will come to the conclusion that the Mortgage Receivable and the claim of the Borrower against the Seller result from the same legal relationship will depend on all relevant facts and circumstances involved. But even if these would be held to be different legal relationships, set-off will be possible if the counterclaim of the Borrower has originated ("*opgekomen*") and become due and payable ("*opeisbaar*") prior to notification of the assignment, provided that all other requirements for set-off have been met (see above). A balance on a current account is due and payable at any time and, therefore, this requirement will be met. In the case of deposits it will depend on the term of the deposit whether the balance thereof will be due and payable at the moment of notification of the assignment. The Issuer has been informed that in most cases a balance on a deposit account can be withdrawn at any time and, consequently, such balance is due and payable ("*opeisbaar*") at any time. If following receipt of notification of assignment of the Mortgage Receivable, amounts are debited from or credited to the current account or, as the case may be, the deposit account, the Borrower will only be permitted to set-off its claim vis-à-vis the Issuer for the amount of its claim at the moment such notification has been received after deduction of amounts which have been debited from the current account or the deposit account after receipt of such notification, notwithstanding that amounts may have been credited.

If notification of the assignment of the Mortgage Receivables is made after the bankruptcy or emergency regulations of the Seller having become effective, it is defended in legal literature that the Borrower will, irrespective of the notification of the assignment, continue to have the broader set-off rights afforded to it in the Netherlands Bankruptcy Code. Under the Bankruptcy Code a person which is both debtor and creditor of the bankrupt entity can set off its debt with its claims, if each claim (i) came into existence prior to the moment at which the bankruptcy become effective or (ii) resulted from transactions with the bankrupt entity concluded prior to the bankruptcy becoming effective. A similar provision applies in case of emergency regulations.

For specific set-off issues relating to the Life Insurance Policies or, as the case may be, Savings Insurance Policies connected to the Mortgage Loans, reference is made to the paragraph *Risk of set-off or defences by Borrowers in case of insolvency of Insurance Companies* below.

Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the Issuer

The mortgage deeds relating to the Mortgage Receivables to be sold to the Issuer provide that the mortgage rights created pursuant to such mortgage deeds, not only secure the loan granted to the Borrower for the purpose of acquiring the Mortgaged Assets, but also other liabilities and moneys that the Borrower, now or in the future, may owe to the Seller ("**Bank Mortgages**"). The Mortgage Loans also provide for rights of pledge granted in favour of the Seller, which secure the same debts as the Bank Mortgages ("**Bank Pledges**" and jointly with the Bank Mortgages, the "**Bank Security Rights**").

Under Netherlands law a mortgage right is an accessory right ("*afhankelijk recht*") which follows by operation of law the receivable with which it is connected. Furthermore, a mortgage right is an ancillary right ("*nevenrecht*") and the assignee of a receivable secured by an ancillary right will have the benefit of such right, unless the ancillary right by its nature is, or has been construed as, a purely personal right of the assignor or such transfer is prohibited by law.

The prevailing view of Dutch legal commentators has been for a long time that upon the assignment of a receivable secured by a Bank Security Right, such security right does not pass to the assignee as an

accessory and ancillary right in view of its non-accessory or personal nature. It was assumed that a Bank Security Right only follows a receivable which it secures, if the relationship between the bank and the borrower has been terminated in such a manner that following the assignment the bank cannot create or obtain further receivables from the relevant borrower secured by the security right. These commentators claim that this view is supported by case law.

There is a trend in recent legal literature to dispute the view set out in the preceding paragraph. Legal commentators following such trend argue that in case of assignment of a receivable secured by a bank security right, the security right will in principle (partially) pass to the assignee as an accessory right. In this argument the transfer does not conflict with the nature of a bank mortgage, which is -in this argument- supported by the same case law. Any further claims of the assignor will also continue to be secured and as a consequence the bank security right will be jointly-held by the assignor and the assignee after the assignment. In this view a bank security right only continues to secure exclusively claims of the original holder of the security right and will not pass to the assignee, if this has been explicitly stipulated in the deed creating the security right.

Although the view prevailing in the past, to the effect that given its nature a bank security right will as a general rule not follow as an accessory right upon assignment of a receivable which it secures, is still defended, the Issuer has been advised that the better view is that as a general rule a bank security right in view of its nature follows the receivable as an accessory right upon its assignment. Whether in the particular circumstances involved the bank security right will remain with the original holder of the security right, will be a matter of interpretation of the relevant deed creating the security right.

In respect of the Mortgage Loans originated before the end of 2005, the relevant mortgage deeds stipulate that in case of assignment of the receivable the mortgage right will follow if this is stipulated upon the assignment. The conditions applicable to Mortgage Loans originated as of the end of 2005 provide that in case of assignment or pledge of the receivable the Borrower and the Seller have the explicit intention that the assignee or pledgee will have the benefit of (a pro rata part of) the mortgage rights and rights of pledge securing such receivable, unless the Seller determines otherwise prior to the assignment or pledge. These stipulations are a clear indication of the intentions of the parties in this respect. The Issuer has been advised that, in the absence of circumstances giving an indication to the contrary, the inclusion of these provisions in the Mortgage Loans makes clear that the mortgage right (partially) follows the receivable as accessory and ancillary right upon its assignment, but that there is no case law explicitly supporting this advice.

The above applies *mutatis mutandis* in the case of the pledge of the Mortgage Receivables by the Issuer to the Security Trustee under the Security Trustee Receivables Pledge Agreement. However, the Mortgage Conditions in respect of Mortgage Loans originated before the end of 2005 do not provide that in case of a pledge of the Mortgage Receivable the Mortgage will (partially) follow the Mortgage Receivable. Therefore, there is no clear indication of the intention of the parties and, consequently, the view expressed in the above paragraph does not apply to the pledge of the Mortgage Receivables. However, a good argument can be made that the intention of the parties in case of an assignment of the Mortgage Receivable also includes the intention in case of a pledge of such Mortgage Receivable. Even if the Mortgage Conditions do not provide a clear indication on the intentions of the parties in case of pledge, the Issuer has been advised that the Security Trustee as pledgee should have the benefit of the mortgage right as accessory and ancillary right upon notification of the assignment of the Mortgage Receivables to the Issuer and the pledge to the Security Trustee. It should be noted, however, that there is no case law explicitly supporting this view. Therefore it is not certain what the Netherlands courts would decide if the matter were to be submitted to them, particularly taking into account the prevailing view of Dutch legal commentators on Bank Mortgages in the past, which view continues to be defended by some legal commentators.

The Mortgage Loans originated before the end of 2005 do not provide for the Bank Pledges to partially follow the Mortgage Receivable upon assignment or pledge thereof. Consequently, there is no clear indication of the intention of the parties. The Issuer has been advised that also in such case the Bank Pledge should (partially) follow the receivable as accessory and ancillary right upon its assignment, but that there is no case law explicitly supporting this advice and that, consequently, it is not certain what the Netherlands courts would decide if this matter were to be submitted to them, particularly taking

into account the prevailing view of Dutch legal commentators on Bank Security Rights in the past as described above, which view continues to be defended by some legal commentators.

Risk related to jointly-held Bank Security Rights by the Seller, the Issuer and the Security Trustee

If the Bank Security Rights have (partially) followed the Mortgage Receivables upon their assignment, the Bank Security Rights will be jointly-held by the Issuer and the Seller and will secure both the Mortgage Receivables held by the Issuer (or the Security Trustee, as pledgee) and any claims held by the Seller (the "**Other Claims**"). This will not apply, however, to Mortgage Loans originated before the end of 2005, since the relevant mortgage deeds relating to those Mortgage Loans provide that following assignment or pledge of the Mortgage Receivable the mortgage right no longer secures such Other Claims.

Where Bank Security Rights are jointly-held by both the Issuer or the Security Trustee and the Seller, the rules applicable to a joint estate ("*gemeenschap*") apply. The Netherlands Civil Code provides for various mandatory rules applying to such jointly-held rights. In the Mortgage Receivables Purchase Agreement the Seller, the Issuer and the Security Trustee have agreed that the Issuer and/or the Security Trustee (as applicable) will manage and administer such jointly-held rights. Certain acts, including acts concerning the day-to-day management ("*beheer*") of the jointly-held rights, may under Dutch law be transacted by each of the participants ("*deelgenoten*") in the jointly-held rights. All other acts must be transacted by all of the participants acting together in order to bind the jointly-held rights. It is uncertain whether the foreclosure of the mortgage rights will be considered as day-to-day management, and, consequently it is uncertain whether the consent of the Seller, the Seller's bankruptcy trustee (in case of bankruptcy) or administrator (in case of emergency regulations), as the case may be, may be required for such foreclosure. The Seller, the Issuer and the Security Trustee will agree that in case of foreclosure the share ("*aandeel*") in each jointly-held mortgage right of the Security Trustee and/or the Issuer will be equal to the outstanding principal amount of the Mortgage Receivable, increased with interest and costs, if any, and the share of the Seller will be equal to the Net Proceeds less the outstanding principal amount, increased with interest and costs, if any. The Issuer has been advised that although a good argument can be made that this arrangement will be enforceable against the Seller or, in case of its bankruptcy or emergency regulations, its trustee ("*curator*") or administrator ("*bewindvoerder*"), as the case may be, this is not certain. Furthermore it is noted that this arrangement may not be effective against the Borrower. In this respect it is noted that the conditions applicable to Mortgage Loans originated after the end of 2005 provide that the Borrower will be bound by this arrangement.

If (a trustee or administrator of) the Seller would, notwithstanding the arrangement set out above, enforce the jointly-held Bank Security Rights securing the Mortgage Receivables originated after the end of 2005, the Issuer and/or the Security Trustee would have a claim against the Seller (or, as the case may be, its bankruptcy estate) for any damages as a result of a breach of the contractual arrangements, but such claim would be unsecured and non-preferred.

Risk related to partial termination of the Bank Security Rights

The Mortgage Receivables Purchase Agreement provides that upon the occurrence of an Assignment Notification Event the Seller is required to give notice to the Borrowers of partial termination of the Bank Security Rights securing the Mortgage Receivables originated after the end of 2005. As a consequence of such partial termination, the Bank Security Rights will only secure the Mortgage Receivables and the joint estate (see *Risk related to jointly-held Bank Security Rights by the Seller, the Issuer and the Security Trustee*) will be terminated.

The Issuer has been advised that the Seller can effectively partially terminate the Bank Security Rights in this manner, also taking into account that the Mortgage Receivables Purchase Agreement provides for partial termination of the Bank Security Rights to the extent they secure other debts than the Mortgage Receivables but that there is no case law supporting this opinion.

The Seller's undertaking to partially terminate the Bank Security Rights is no longer enforceable if the Seller would be declared bankrupt or become subject to emergency regulations. The co-operation of the Seller's administrator (in case of emergency regulations) or bankruptcy trustee (in case of

bankruptcy) would be required for such act and it is not certain whether such co-operation will be forthcoming. Also, the power of attorney given to the Issuer and the Security Trustee, respectively, to effectuate such partial termination on behalf of the Seller would terminate or become ineffective in such event.

Risk that the mortgage rights on Long Leases cease to exist

The mortgage rights securing the Mortgage Loans may be vested on a long lease ("*erfpacht*"), as further described in *Description of Mortgage Loans* below. A long lease will, *inter alia*, end as a result of expiration of the long lease term (in the case of a lease for a fixed period), or termination of the long lease by the leaseholder or the landowner. The landowner can terminate the long lease if the leaseholder has not paid the remuneration due for a period exceeding two consecutive years or seriously breaches ("*in ernstige mate tekortschiet*") other obligations under the long lease. If the long lease ends, the landowner will have the obligation to compensate the leaseholder. In such event the mortgage right will, by operation of law, be replaced by a right of pledge on the claim of the (former) leaseholder on the landowner for such compensation. The amount of the compensation will, *inter alia*, be terminated by the conditions of the long lease and may be less than the market value of the long lease.

When underwriting a Mortgage Loan to be secured by a mortgage right on a long lease, the Seller will take into consideration certain conditions, in particular the term of the long lease. Therefore, the mortgage conditions used by the Seller provide that the principal sum of a Mortgage Receivable, including interest, will become immediately due and payable, *inter alia*, if the long lease terminates, if the lease holder materially breaches or ceases to perform his payment obligation under the long lease ("*canon*") or if the lease holder in any other manner breaches the conditions of the long lease.

Risk that Borrower Insurance Pledges will not be effective

All rights of a Borrower under the Insurance Policies have been pledged to the Seller (the "**Borrower Insurance Pledge**"). The Issuer has been advised that it is probable that the right to receive payment, including the commutation payment ("*afkoopsom*"), under the Insurance Policies will be regarded by a Netherlands court as a future right. The pledge of a future right is, under Netherlands law, not effective if the pledgor is declared bankrupt, granted a suspension of payments or is subject to emergency regulations, prior to the moment such right comes into existence. This means that it is uncertain whether such pledge will be effective. The Borrower Insurance Pledge secures the same liabilities as the Bank Security Rights (and should therefore be regarded as Bank Pledges). The conditions applicable to the Borrower Insurance Pledges do not provide that in case of assignment or pledge of the receivable, the pledge will (partially) follow such receivable. Consequently, there is no clear indication of the intention of the parties. However, the Issuer has been advised that, based upon recent legal literature (see *Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the Issuer* above) the Borrower Insurance Pledges should partially follow the Mortgage Receivables upon their assignment and pledge.

Risks relating to Beneficiary Rights under the Insurance Policies

The Seller has been appointed as beneficiary (i) under the relevant Life Insurance Policy up to the amount of its claim on the Borrower/policyholder and (ii) under the relevant Savings Insurance Policy up to the amount due by the Borrower to the Seller at the time the insurance proceeds are due and payable (together the "**Beneficiary Rights**"), except that in certain cases another beneficiary is appointed who will rank ahead of the Seller, provided that, *inter alia*, the relevant Insurance Company is irrevocably authorised by such beneficiary to pay the proceeds of the Insurance Policy to the Seller (the "**Borrower Insurance Proceeds Instruction**"). It is unlikely that the appointment of the Seller as beneficiary will be regarded as an ancillary right and that it will follow the Mortgage Receivables upon assignment or pledge thereof to the Issuer or the Security Trustee. However, in the form of the Borrower Insurance Pledge with respect to Life Insurance Policies used by the Seller as of 25 September 2000 and in the forms of mortgage deeds with respect to Savings Insurance Policies used by the Seller as of the end of 2005, any successor in title ("*rechtsopvolgers onder algemene en bijzondere titel*") is also appointed as beneficiary, which may, subject to the legal requirements for a valid assignment and subject to any requirements stipulated by the Life Insurance Policy, or Savings Insurance Policy, as the case may be, include the Issuer upon the assignment. The Beneficiary Rights will be assigned by the Seller to the Issuer and will be pledged to the Security Trustee by the Issuer

(see *Description of Security* below). However, the Issuer has been advised that it is uncertain whether this assignment and pledge will be effective.

The Issuer and the Security Trustee will enter into a beneficiary waiver agreement (the "**Beneficiary Waiver Agreement**") with the Seller and the Savings Insurance Company under which the Seller, without prejudice to the rights of the Issuer as assignee and the rights of the Security Trustee as pledgee and subject to the condition precedent of the occurrence of an Assignment Notification Event, waives its rights as beneficiary under the Savings Insurance Policies and appoints as first beneficiary (i) the Issuer subject to the dissolving condition ("*ontbindende voorwaarde*") of a Security Trustee Pledge Notification Event and (ii) the Security Trustee under the condition precedent ("*opschortende voorwaarde*") of the occurrence of a Security Trustee Pledge Notification Event. It is, however, uncertain whether such waiver, and unlikely that such appointment, will be effective. In the event that such waiver and appointment are not effective in respect of the Savings Insurance Policies and, furthermore, in respect of the Life Insurance Policies, the Seller and, in respect of the Savings Insurance Policies, the Savings Insurance Company will undertake in the Beneficiary Waiver Agreement that upon the occurrence of a Security Trustee Pledge Notification Event, they will use their best efforts to terminate the appointment of the Seller as beneficiary under the Insurance Policies and to appoint the Issuer or the Security Trustee, as the case may be, as first beneficiary under the Insurance Policies.

In the event that a Borrower Insurance Proceeds Instruction has been given, the Seller and, in respect of the Savings Insurance Policies, the Savings Insurance Company, will in the Beneficiary Waiver Agreement undertake, following a Security Trustee Pledge Notification Event to use their best efforts to withdraw the Borrower Insurance Proceeds Instruction in favour of the Seller and to issue such instruction in favour of (i) the Issuer subject to the dissolving condition ("*ontbindende voorwaarde*") of a Security Trustee Pledge Notification Event and (ii) the Security Trustee under the condition precedent ("*opschortende voorwaarde*") of the occurrence of a Security Trustee Pledge Notification Event. The termination and appointment of a beneficiary under the Insurance Policies and the withdrawal and the issue of the Borrower Insurance Proceeds Instruction will require the co-operation of all relevant parties involved. It is uncertain whether such co-operation will be forthcoming.

If the Issuer or the Security Trustee, as the case may be, has not become beneficiary of the Insurance Policies or the assignment and pledge of the Beneficiary Rights is not effective, any proceeds under the Insurance Policies will be payable to the Seller or to another beneficiary rather than to the Issuer or the Security Trustee, as the case may be, up to the amount of any claims the Seller may have on the relevant Borrower. If the proceeds are paid to the Seller, it will pursuant to the Mortgage Receivables Purchase Agreement be obliged to pay the amount involved to the Issuer or the Security Trustee, as the case may be. If the proceeds are paid to the Seller and the Seller does not pay such amount to the Issuer or the Security Trustee, as the case may be, e.g. in case of bankruptcy of the Seller, or if the proceeds are paid to another beneficiary instead of the Issuer or the Security Trustee, as the case may be, this may result in the amount paid under the Insurance Policies not being applied in reduction of the relevant Mortgage Receivables. This may lead to the Borrower invoking set-off or defences against the Issuer or, as the case may be, the Security Trustee for the amounts so received by the Seller or another beneficiary, as the case may be.

Risk of set-off and defences by Borrowers in case of insolvency of Insurance Companies

Under certain types of Mortgage Loans the Seller has the benefit of rights under Life Insurance Policies and Savings Insurance Policies (together the "**Insurance Policies**") with Life Insurance Companies and the Savings Insurance Company respectively (together the "**Insurance Companies**"). Under the Insurance Policies the Borrowers pay premium consisting of a risk element and a savings or investment element. The intention of the Insurance Policies is that at maturity of the relevant Mortgage Loan, the proceeds of the savings or investments can be used to repay the relevant Mortgage Loan, whether in full or in part. If any of the Insurance Companies is no longer able to meet its obligations under the Insurance Policies, for example as a result of bankruptcy or having become subject to emergency regulations, this could result in the amounts payable under the Insurance Policies either not, or only partly, being available for application in reduction of the relevant Mortgage Receivables. This may lead to the Borrowers trying to invoke set-off rights and defences which may have the result that the Mortgage Receivables will be, fully or partially, extinguished ("*teniet gaan*") or cannot be

recovered for other reasons, which could lead to losses under the Notes.

As set out in *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables* above, the Borrowers have waived their set-off rights, but it is uncertain whether such waiver is effective. With a view to further reducing the risk of set-off by Borrowers, the general conditions applicable to Mortgage Loans originated after the end of 2005 have been changed to provide that the Borrower will not have the right to set off claims under insurance policies with obligations under mortgage loans and confirm that (i) the bank and the relevant insurance company are different legal entities and (ii) the rights and obligations under the insurance policies are independent from the rights and obligations under the mortgage loans. This provision provides arguments for a defence against Borrowers invoking set-off rights or other defences (see below), but it is uncertain whether this provision in the general conditions will be effective.

If the provisions described above are not effective, the Borrowers will, in order to invoke a right of set-off, need to comply with the applicable legal requirements for set-off. One of these requirements is that the Borrower should have a claim, which corresponds to his debt to the same counterparty. The Insurance Policies are contracts between the relevant Insurance Company and the Borrowers. Therefore, in order to invoke a right of set-off, the Borrowers would have to establish that the Seller and the relevant Insurance Company should be regarded as one legal entity or, possibly, based upon interpretation of case law, that set-off is allowed, even if the Seller and the relevant Insurance Company are not considered as one legal entity, since the Insurance Policies and the Mortgage Loans might be regarded as one inter-related legal relationship. Furthermore, the Borrowers should have a counterclaim that is due and payable. If the relevant Insurance Company is declared bankrupt or subject to emergency regulations, the Borrower will have the right unilaterally to terminate the Insurance Policy and to receive a commutation payment ("*afkoopsom*"). These rights are subject to the Borrower Insurance Pledge. However, despite this pledge, it could be argued that the Borrower will be entitled to invoke a right of set-off for the commutation payment, subject, however, to what is stated above under *Risk that Borrower Insurance Pledges will not be effective*. However, apart from the right to terminate the Insurance Policies, the Borrowers are also likely to have the right to dissolve the Insurance Policies and to claim restitution of premiums paid and/or supplementary damages. It is uncertain whether such claim is subject to the Borrower Insurance Pledge. If not, the Borrower Insurance Pledge would not obstruct a right of set-off in respect of such claim by the Borrowers.

Set-off vis-à-vis the Issuer after notification of the assignment would be subject to the additional requirements for set-off after assignment being met (see *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables* above). In the case of Savings Mortgage Loans (one of) these requirements is likely to be met, since it is likely that the Savings Mortgage Loans and the Savings Insurance Policies are to be regarded as one legal relationship. If the Savings Mortgage Loan and the Savings Insurance Policy are regarded as one legal relationship the assignment will not interfere with the set-off. The Issuer has been advised that it is unlikely, however, that the Mortgage Loans and the Life Insurance Policies should be regarded as one legal relationship.

Even if the Borrowers cannot invoke a right of set-off, they may invoke defences vis-à-vis the Seller, the Issuer and/or the Security Trustee, as the case may be. The Borrowers could, *inter alia*, argue that it was the intention of the parties involved, or at least argue that they could rightfully interpret the mortgage documentation and the promotional materials in such a manner, that the Mortgage Receivable and the relevant Insurance Policy are to be regarded as one inter-related legal relationship and could, on this basis, claim a right of annulment or dissolution of the Mortgage Loans or, alternatively, claim that the Mortgage Receivable would be (fully or partially) repaid by means of the proceeds of the Insurance Policy and that, failing such proceeds being so applied, the Borrower is not obliged to repay the (corresponding) part of the Mortgage Receivable. On the basis of similar reasoning Borrowers could also argue that the Mortgage Loan and the Insurance Policy were entered into as a result of "error" ("*dwalig*") or that it would be contrary to principles of reasonableness and fairness ("*redelijkheid en billijkheid*") for the Borrower to be obliged to repay the Mortgage Receivable to the extent that he has failed to receive the proceeds of the Insurance Policy.

Life Mortgage Loans

In respect of the risk of such set-off or defences being successful, as described above, if, in case of bankruptcy or emergency regulations of any of the Life Insurance Companies, the Borrowers/insured will not be able to recover their claims under their Life Insurance Policies, the Issuer has been advised that, in view of the preceding paragraphs and the representation by the Seller that with respect to Mortgage Loans whereby it is a condition for the granting of the relevant Mortgage Loan that a Life Insurance Policy is entered into by the Borrower (i) a Borrower Insurance Pledge is granted on the rights under such policy in favour of the Seller (see Mortgage Loan Criteria sub (ix), (ii) the Mortgage Loan and the Life Insurance Policy are in the Seller's or the Life Insurance Company's promotional materials not offered as one product under one name, and (iii) the Borrowers are not obliged to enter into the Life Insurance Policy with a Life Insurance Company which is a group company of the Seller, it is unlikely that a court would honour set-off or defences of the Borrowers, as described above, if the Life Insurance Company is not a group company of the Seller within the meaning of Article 2:24b of the Dutch Civil Code. However, if the Life Insurance Company is a group company of the Seller, the Issuer has been advised that the possibility cannot be disregarded ("*kan niet worden uitgesloten*") that the courts will honour set-off or defences by the Borrowers.

Savings Mortgage Loans

In respect of Savings Mortgage Loans the Issuer has been advised that there is a considerable risk ("*een aanmerkelijk risico*") that such a set-off or defence would be successful in view of, *inter alia*, the close connection between the Savings Mortgage Loan and the Savings Insurance Policy and the wording of the mortgage deeds relating to the Savings Mortgage Loans.

In respect of Savings Mortgage Loans to which a Savings Insurance Policy with the Savings Alternative is connected, the Sub-Participation Agreement will provide that should a Borrower invoke a defence, including but not limited to a right of set-off or counterclaim in respect of such Savings Mortgage Loan if, for whatever reason, the Savings Insurance Company does not pay the insurance proceeds when due and payable, whether in full or in part, under the relevant Savings Insurance Policy and, as a consequence thereof, the Issuer will not have received any amount outstanding prior to such event, the relevant Participation of the Savings Insurance Company will be reduced by an amount equal to the amount which the Issuer has failed to receive. The amount of the Participation is equal to the amounts of Savings Premium received by the Issuer plus the accrued yield on such amount (see *Sub-Participation Agreement* below), provided that the Savings Insurance Company will have paid all amounts equal to the amounts due under the Sub-Participation Agreement to the Issuer. Therefore, normally the Issuer would not suffer any damages if the Borrower invokes any such right of set-off or defence, if and to the extent that the amount for which the Borrower invokes set-off or defences does not exceed the amount of the Participation. However, the amount for which the Borrower can invoke set-off or defences may, depending on the circumstances, exceed the amount of the Participation.

The Sub-Participation Agreement does not apply to Savings Mortgage Loans to which a Savings Insurance Policy with the Investment Alternative is connected. In this respect it is noted that at the Closing Date only a small percentage of all Savings Mortgage Receivables have a Savings Insurance Policy with the Investment Alternative. Furthermore, the Issuer has been advised that the proportion of Savings Mortgage Receivables to which a Savings Insurance Policy with the Investment Alternative is connected, is not expected to increase substantially after the Closing Date, considering that from a tax perspective, the Savings Alternative is more attractive than the Investment Alternative for Borrowers who have opted for the certainty of a guaranteed payment sufficient to redeem the outstanding principal amount of such Savings Mortgage Loan at its maturity (see *SNS Residential Mortgage Business* below).

Risk that interest rate reset rights will not follow Mortgage Receivables

The Issuer has been advised that a good argument can be made that the right to reset the interest rate on the Mortgage Loans should be considered as an ancillary right and follows the Mortgage Receivables upon their assignment to the Issuer and the pledge to the Security Trustee, but that in the absence of case law or legal literature this is not certain. To the extent the interest rate reset right passes upon the assignment of the Mortgage Receivables to the Issuer or upon the pledge of the Mortgage Receivables to the Security Trustee, such assignee or pledgee will be bound by the contractual provisions relating to the reset of interest rates. If the interest reset right remains with the Seller, the co-operation of the

trustee (in bankruptcy) or administrator (in emergency regulations) would be required to reset the interest rates.

Risks related to Investment-based Mortgage Loans

In the case of investment-based mortgage loans ("*rendementhypotheken*") ("**Investment-based Mortgage Loans**"), the Borrower undertakes to invest, whether on a lump sum basis or on an instalment basis, by applying his own funds or (part of) the proceeds of the Investment-based Mortgage Loan by means of an '*SNS Rendementrekening*', an investment account held with the Seller (the "**Investment Account**") in certain investment funds of SNS Beleggingsfondsen N.V. (the "**Investment Funds**"). The investments in Investment Funds are effectuated by the Borrowers paying the relevant amount from the Investment Account to an account held with the Seller, designated by the Seller for the purchasing of securities of Investment Funds by Stichting SNS Beleggersgiro ("**SNS Beleggersgiro**"). The securities purchased by SNS Beleggersgiro, will be in the form of "*Wge-effecten*" (securities regulated under the Dutch Securities Giro Transfer Act, "*Wet giraal effectenverkeer*") and will be administrated on the Investment Account.

Bank Pledge on the rights of the Borrowers against SNS Beleggersgiro

The Issuer has been advised that a reasonable interpretation of the conditions applicable to nearly all of the Investment-based Mortgage Loans is that the rights of the Borrowers against SNS Beleggersgiro have been pledged to the Seller. The pledge should be considered as a Bank Pledge and consequently the observations made under *Bank Security Rights* above apply equally here.

Risk that SNS Beleggersgiro is not able to meet its obligations towards the Borrowers

Pursuant to the regulations ("*Reglement SNS Beleggersgiro*", hereinafter the "**Regulations**") the Borrowers will have a claim against SNS Beleggersgiro with respect to their investments held in the Investment Account. The Issuer has been informed that SNS Beleggersgiro is a bankruptcy-remote entity. The object ("*doel*") of each of SNS Beleggersgiro is broadly, limited to the acquisition, by way of custody and administration, of shares in investment funds or other securities for the benefit of the holders of investment accounts and any activity which can lead to any commercial risk for SNS Beleggersgiro is explicitly excluded from the object of SNS Beleggersgiro. Assuming that SNS Beleggersgiro acts in accordance with its object, its obligations vis-à-vis the holders of Investment Accounts should be corresponding with the value of the participations of SNS Beleggersgiro in the Investment Funds. Should SNS Beleggersgiro not be able to meet its obligations towards the Borrowers, this could lead to set-off or defences by Borrowers similar to those described under *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables* above.

Reduced value of investments may affect the proceeds under certain types of Mortgage Loans

The value of investments made under the Investment-based Mortgage Loans or by one of the Life Insurance Companies in connection with the Life Insurance Policies or by the Savings Insurance Company in connection with the Savings Mortgage Loans to which a Savings Insurance Policy with the Investment Alternative is connected, may not be sufficient for the Borrower to fully redeem the related Mortgage Receivables at its maturity.

In addition, if the value of the investments under the Investment-based Mortgage Loans has reduced considerably, a Borrower may, or may try to, invoke set-off or defences against the Issuer arguing that he has not been properly informed of the risks involved in the investments. The merits of any such claim will, to a large extent, depend on the manner in which the Investment-based Mortgage Loans have been marketed and the promotional material provided to the Borrower. This may also apply following a reduction in value of investments made by any of the Life Insurance Companies in connection with the Life Insurance Policies or by the Savings Insurance Company in connection with the Savings Mortgage Loan to which a Savings Insurance Policy with the Investment Alternative is connected.

Maturity risk related to the Mortgage Loans

The standard mortgage deed used by the Seller in case of an Interest-only Mortgage Loan originated prior to 1 October 2003 ("*SNS Aflossingsvrije Hypotheek*") states that such loan is entered into for an unlimited period of time and that, unless agreed otherwise at any time, the Borrower is not obliged to repay the principal sum borrowed (the "**Principal Sum**"). However, the mortgage deed and the Seller's

general terms and conditions applicable to loans and mortgages (the "**General Conditions**") both contain clauses pursuant to which the Seller may demand repayment of the Principal Sum or pursuant to which the Principal Sum is declared immediately due and payable.

With respect to the General Conditions it is noted that these conditions provide that the Principal Sum, increased with interest, reimbursements, costs and amounts paid by the Seller on behalf of the Borrower and any other amounts due by the Borrower to the Seller for whatever reason at any time (the "**Debt**"), will become immediately due and payable in certain events, *inter alia*, if the Life Insurance Policy belonging to the Mortgage Loan is invalid and/or payment of premium under the Life Insurance Policy is suspended ("*premievrij*") and/or the Life Insurance Company makes a payment under the Life Insurance Policy (see *Mortgage Receivables Purchase Agreement* below). In such event the Seller is thus entitled to terminate the Mortgage Loan (including an Interest-only Mortgage Loan). Furthermore, the Seller has represented that each of the Mortgage Loans with a tenor of more than thirty years or without a maturity date will have a Life Insurance Policy attached to it in the form of a combined risk and capital policy which, as far as the risk element is concerned, pays out upon death of the insured and, as far as the capital element is concerned, upon maturity of the policy and that each of the Life Insurance Policies has a term not exceeding thirty years from the date on which the Mortgage Loan was granted.

No specific termination event is provided in the General Conditions in case of death of a Borrower. Death of a Borrower would not necessarily lead to repayment of the Principal Sum. However, if a Life Insurance Policy is connected to the Mortgage Loan, the death of a Borrower who is also the insured under the policy will in principle result in a payment under the Life Insurance Policy and the Debt becoming due (as described above).

Under Netherlands law any contractual provision may not be enforceable if this would be unacceptable in the circumstances involved on the basis of applicable standards of reasonableness and fairness ("*redelijkheid en billijkheid*"). In respect of provisions contained in general conditions (such as the General Conditions) the relevant statutory provisions provide, more specifically, that a provision is voidable, if considering the nature and the further contents of the agreement, the manner in which the general conditions were agreed upon, the mutually apparent interests of the parties involved and the further circumstances, it is unreasonably onerous from the perspective of the party against whom the general conditions are applied. Borrowers may argue that, depending on the circumstances, the clause in the General Conditions relating to acceleration of the Debt in case the insurance proceeds are paid out (as described above) is voidable or otherwise unenforceable on the basis of these statutory provisions.

Risk related to prepayments on the Mortgage Loans

The maturity of the Notes of each Class will depend on, *inter alia*, the amount and timing of payment of principal (including full and partial prepayments, sale of the Mortgage Receivables by the Issuer, Net Proceeds upon enforcement of a Mortgage Loan and repurchase by the Seller of Mortgage Receivables) on the Mortgage Loans. The average maturity of the Notes may be adversely affected by a higher or lower than anticipated rate of prepayments on the Mortgage Loans. The rate of prepayment of Mortgage Loans is influenced by a wide variety of economic, social and other factors, including prevailing market interest rates, changes in tax laws (including, but not limited to, amendments to mortgage interest tax deductibility), local and regional economic conditions and changes in Borrowers' behaviour (including, but not limited to, home-owner mobility). No guarantee can be given as to the level of prepayment that the Mortgage Loans may experience, and variation in the rate of prepayments of principal on the Mortgage Loans may affect each Class of Notes differently.

In addition, it is noted that the Savings Mortgage Loans become immediately due and payable up to the amount of the savings deposit with the Seller, *inter alia*, if the Seller is declared bankrupt or subjected to emergency regulations. In such event the Borrower also has the right to fully repay the Savings Mortgage Loan without any penalty being due.

Payments on the Mortgage Receivables are subject to credit, liquidity and interest rate risks

Payments on the Mortgage Receivables are subject to credit, liquidity and interest rate risks. This may be due to, among other things, market interest rates, general economic conditions, the financial

standing of Borrowers and similar factors. Other factors such as loss of earnings, illness, divorce and other similar factors may lead to an increase in delinquencies and bankruptcy filings by Borrowers and could ultimately have an adverse impact on the ability of Borrowers to repay their Mortgage Receivables.

Risks of Losses Associated with Declining Values of Mortgaged Assets

The security for the Notes created under the Security Trustee Receivables Pledge Agreement may be affected by, among other things, a decline in the value of the Mortgaged Assets. No assurance can be given that values of the Mortgaged Assets have remained or will remain at the level at which they were on the date of origination of the related Mortgage Loans. A decline in value may result in losses to the Noteholders if the relevant security rights on the Mortgaged Assets are required to be enforced. The Seller will not be liable for any losses incurred by the Issuer in connection with the Mortgage Loans.

RISK FACTORS REGARDING THE NOTES

European Union Directive on the taxation of savings

On 3 June 2003 the Council of the European Union adopted a Council Directive on the taxation of savings income in the form of interest payments (the "**Directive**"). The Directive applies to interest payments (as defined in the Directive) made in one Member State to or for individual beneficial owners (as defined in the Directive) who are resident in another Member State and requires all Member States to adopt an information reporting system with regard to such payments. However, for a transitional period, Austria, Belgium, and Luxembourg are permitted to operate a withholding tax system.

Application of the Directive by Member States was conditional on certain European third countries (Switzerland, Andorra, Liechtenstein, Monaco, and San Marino) and certain dependent or associated territories (Anguilla, Aruba, British Virgin Islands, Cayman Islands, Guernsey, Isle of Man, Jersey, Montserrat, Netherlands Antilles, Turks and Caicos Islands) applying equivalent or, respectively, the same measures from the same date. On 24 June 2005, the Council confirmed in a "green light note" that all parties (including the EU Member States) will apply the agreed savings tax measures from 1 July 2005. The transitional period commenced on the same date.

Under the information reporting system, a Member State will automatically communicate to the beneficial owner's Member State of residence information regarding interest payments (including the identity and residence of the beneficial owner) made by paying agents (as defined in the Directive) established within the former Member State, without requiring reciprocity. Under the withholding tax system (for Austria, Belgium, and Luxembourg), a Member State will levy a withholding tax in respect of interest payments made by paying agents established within its territory at a rate of 15 per cent. during the first three years of the transitional period, 20 per cent. for the subsequent three years, and 35 per cent. thereafter. The transitional period will end, and those Member States permitted to levy a withholding tax will, instead, be required to implement an information reporting system at the end of the first fiscal year following agreement regarding information exchange by certain non-EU countries with respect to interest payments. Similar provisions apply to interest payments made by paying agents established in the above-mentioned European third countries and dependent or associated territories to beneficial owners resident in an EU Member State (and in some cases vice versa).

Under the Directive, the term "paying agent" means, generally, the last intermediary in any given chain of intermediaries that pays interest directly to, or secures the payment of interest for the immediate benefit of, the beneficial owner; the term "interest" is defined broadly and would include interest relating to debt-claims of any kind, including income from bonds; and the term "beneficial owner" means any individual who receives an interest payment or any individual for whom an interest payment is secured, unless he or she provides evidence that it was not received or secured for his or her own benefit.

The Netherlands has adopted legislation implementing the provisions of the Directive. These provisions came into force in part on 1 January 2004 and the remainder on 1 July 2005. An individual Holder of Notes who is resident in an EU Member State other than the Netherlands or, in certain of the above-mentioned European third countries and dependent or associated territories, may become subject

to the automatic supply of information to the jurisdiction in which the individual is resident with regard to interest payments made by (or in certain cases, to) paying agents established in the Netherlands. However, although the above-mentioned legislation provides for the possibility of extending the effective application of the Directive to individuals resident in the above-mentioned European third countries and dependent or associated territories, the legislation has only been extended to individuals resident in Aruba, British Virgin Islands, Guernsey, Isle of Man, Jersey, Montserrat, and Netherlands Antilles.

Risk that the Issuer will not exercise its right to redeem the Notes at the Optional Redemption Dates

As a result of the increase in the margin payable on and from the Step-Up Date in respect of the floating rate of interest on the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes, the Issuer will have an incentive to exercise its right to redeem the Notes, other than the Subordinated Class E Notes, on the first Optional Redemption Date or on any Optional Redemption Date thereafter. No guarantee can be given that the Issuer will actually exercise such right. The exercise of such right will, *inter alia*, depend on the ability of the Issuer to have sufficient funds available to redeem the Notes, for example through a sale of Mortgage Receivables still outstanding at that time. The Notes, other than the Senior Class A Notes, can be redeemed at an amount less than their Principal Amount Outstanding (see Conditions 6e and 9b in *Terms and Conditions of the Notes* below).

With regard to a sale of Mortgage Receivables to the Seller, it should be noted that according to the solvency regulation (the "**Solvency Regulation**") issued by the Dutch Central Bank, the Seller shall, for the purposes of calculation of its risk-weighted assets, have to set the effective maturity of the transaction envisaged in this Prospectus at the first Optional Redemption Date. Pursuant to the Solvency Regulation an originator is required to build up capital as from the date which is five years prior to the effective maturity date of a securitisation. However, under the Solvency Regulation the Seller will have the option to set the effective maturity of this transaction at the Final Maturity Date, provided that it will not repurchase the Mortgage Receivables. For the avoidance of doubt, this option relates solely to the Seller's own regulatory position and does not necessarily relate to the effective maturity of the Notes.

The Seller will consider, from a regulatory perspective, whether it wishes to set the effective maturity of the transaction envisaged in this Prospectus at the Final Maturity Date instead of at the first Optional Redemption Date. Consequently, it may be possible that the Seller is not allowed to repurchase the Mortgage Receivables, other than (i) as set forth in *Repurchase of Mortgage Receivables in Mortgage Receivables Purchase Agreement* below or (ii) in connection with the exercise by the Seller of the Clean-Up Call Option or (iii) in connection with the exercise by the Issuer of its option to redeem the Notes for tax reasons (Condition 6(h)).

The Seller, should it decide not to repurchase the Mortgage Receivables, has undertaken to inform the Issuer ultimately on the first Optional Redemption Date of such fact. In such case the Issuer shall use its best efforts to sell the Mortgage Receivables or to obtain alternative funding in order to be able to redeem the Notes, other than the Subordinated Class E Notes, as soon as reasonably possible.

Subordination of the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes

To the extent set forth in Conditions 6 and 9, (a) the Mezzanine Class B Notes are subordinated in right of payment to the Senior Class A Notes, (b) the Mezzanine Class C Notes are subordinated in right of payment to the Senior Class A Notes and the Mezzanine Class B Notes, (c) the Junior Class D Notes are subordinated in right of payment to the Senior Class A Notes, the Mezzanine Class B Notes and the Mezzanine Class C Notes and (d) the Subordinated Class E Notes are subordinated in right of payment to the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes. With respect to any Class of Notes, such subordination is designed to provide credit enhancement to any Class of Notes with a higher payment priority than such Class of Notes.

If, upon default by the Borrowers, the Issuer does not receive the full amount due from such Borrowers, Noteholders may receive by way of principal repayment on the Notes an amount less than

the face amount of their Notes and the Issuer may be unable to pay in full interest due on the Notes, to the extent set forth in Condition 9. On any Payment Date, any Realised Losses on the Mortgage Loans will be allocated as described in *Credit Structure* below.

Risk related to the limited liquidity of the Notes

There can be no assurance that a secondary market for the Notes will develop or, if a secondary market does develop, that it will provide Noteholders with liquidity of investment or that it will continue for the life of the Notes. To date, no underwriter has indicated that they intend to establish and/or maintain a secondary market in the Notes.

Maturity Risk

The ability of the Issuer to redeem all the Notes on each Optional Redemption Date or, as the case may be, on the Final Maturity Date in full and to pay all amounts due to the Noteholders, including after the occurrence of an Event of Default, may depend upon whether the value of the Mortgage Receivables is sufficient to redeem the Notes.

No Gross-up for Taxes

As provided in Condition 7, if withholding of, or deduction for, or on account of any present or future taxes, duties, assessments or changes of whatever nature are imposed by or on behalf of the Netherlands, any authority therein or thereof having power to tax, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not be obliged to pay any additional amounts to the Noteholders.

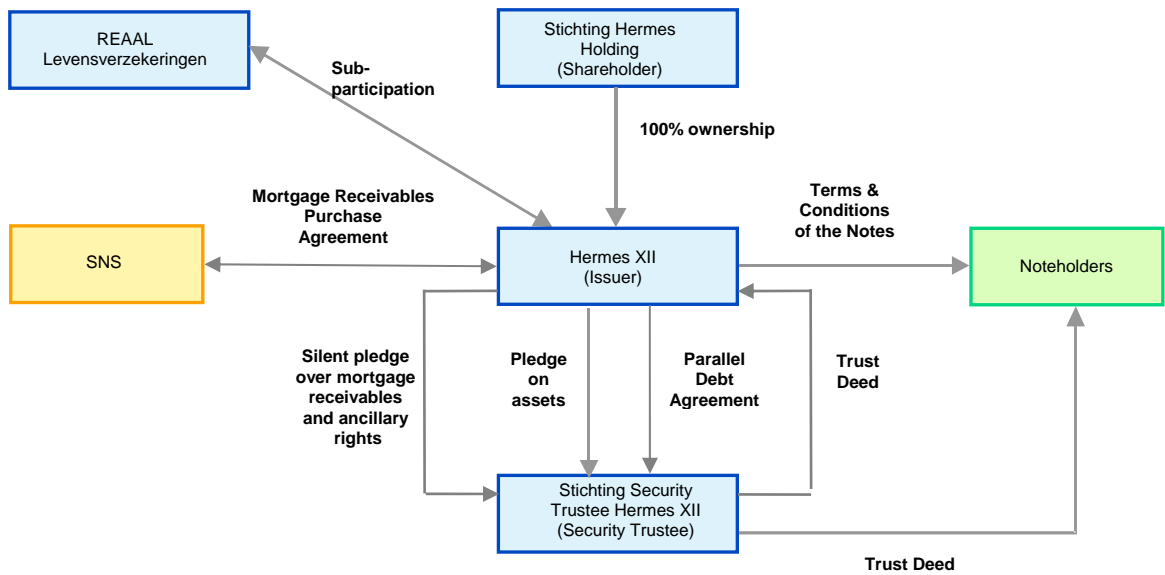

Credit ratings may not reflect all risks

The rating of each of the Notes addresses the assessments made by S&P, Moody's and Fitch of the likelihood of full and timely payment of interest and ultimate payment of principal on or before the Final Maturity Date.

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating organisation if in its judgment, the circumstances (including a reduction in the credit rating of the Floating Rate GIC Provider, the Seller Collection Account Provider, the Swap Counterparty or the Cash Advance Facility Provider) in the future so require.

Interest:

Interest on the Notes is payable by reference to successive interest periods. Each successive interest period will commence on (and include) a Payment Date and end on (but exclude) the next succeeding Payment Date (each an "**Interest Period**"), except for the first Interest Period which will commence on (and include) the Closing Date and end on (but exclude) the Payment Date falling in December 2006. The interest will be calculated on the basis of the actual days elapsed in the Interest Period divided by 360 days.

Interest on the Notes will be payable quarterly in arrear in euros, in each case in respect of the Principal Amount Outstanding of each Class of Notes on the 18th day of March, June, September and December (or, if such day is not a Business Day, the next succeeding Business Day, unless such Business Day falls in the next succeeding calendar month in which event interest on the Notes will be payable on the Business Day immediately preceding such day) in each year (each such day being a "**Payment Date**").

A "**Business Day**" means each day on which banks are open for general business in Amsterdam, provided that such day is also a day on which the Trans-European Automated Real-Time Gross settlement Express Transfer System ("**TARGET System**") or any successor thereto is operating credit or transfer instructions in respect of payments in euro.

Interest on the Notes for each Interest Period will accrue from the Closing Date at an annual rate equal to the sum of the Euro Interbank Offered Rate ("**Euribor**") for three months deposits in euros (determined in accordance with Condition 4(e)) (or, in respect of the first Interest Period, the rate which represents the linear interpolation of Euribor for one and two months deposits in euro), plus up to (and including) the Payment Date falling in March 2016 (the "**Step-Up Date**"), and in respect of the Subordinated Class E Notes up to the Final Maturity Date:

- (i) for the Senior Class A Notes, a margin of 0.12 per cent. per annum;
- (ii) for the Mezzanine Class B Notes, a margin of 0.15 per cent. per annum;
- (iii) for the Mezzanine Class C Notes, a margin of 0.21 per cent. per annum;

(iv) for the Junior Class D Notes, a margin of 0.39 per cent. per annum; and

(v) for the Subordinated Class E Notes, a margin of 0.70 per cent. per annum.

Interest Step-Up:

If on the Step-Up Date the Notes, other than the Subordinated Class E Notes, have not been redeemed in full, the rate of interest applicable for the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes will accrue in the Interest Period commencing on the Step-Up Date and each Interest Period thereafter at an annual rate equal to the sum of Euribor for three months deposits in euros determined in accordance with Condition 4(e), plus a margin which will be:

(i) for the Senior Class A Notes, a margin of 1.00 per cent. per annum;

(ii) for the Mezzanine Class B Notes, a margin of 1.25 per cent. per annum;

(iii) for the Mezzanine Class C Notes, a margin of 1.50 per cent. per annum; and

(iv) for the Junior Class D Notes, a margin of 2.00 per cent. per annum.

Mandatory Redemption of the Notes:

The Issuer will be obliged to apply the Redemption Available Amount to redeem in whole at their respective Principal Amount Outstanding (or partially redeem) the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes on each Payment Date on a *pro rata* basis in the following order: (i) firstly, the Senior Class A Notes until fully redeemed, and, thereafter, (ii) the Mezzanine Class B Notes until fully redeemed, and, thereafter, (iii) the Mezzanine Class C Notes until fully redeemed, and, thereafter, (iv) the Junior Class D Notes until fully redeemed.

In respect of the Subordinated Class E Notes, the Issuer will be obliged to apply the Interest Available Amount if and to the extent that all items ranking in priority to item (p) in the Interest Priority of Payments have been made in full, to redeem (or partially redeem) on a *pro rata* basis the Subordinated Class E Notes on the Payment Date falling in December 2009 and each Payment Date thereafter until the Subordinated Class E Notes are redeemed in full.

Optional Redemption of the Notes:

Unless previously redeemed in full, the Issuer will have the option to redeem all of the Notes, other than the Subordinated Class E Notes, but not some only, on the Payment Date falling in March 2016 and on each Payment Date thereafter (each an "**Optional Redemption Date**") at their Principal Amount Outstanding less (i) in the case of the Mezzanine Class B Notes, a Mezzanine Class B Principal Shortfall (if any), (ii) in the case of the Mezzanine Class C

Notes, a Mezzanine Class C Principal Shortfall (if any), and (iii) in the case of the Junior Class D Notes, a Junior Class D Principal Shortfall (if any), all subject to and in accordance with the Conditions, in particular Conditions 6(e) and 9(b).

Further Mandatory Redemption: If on the Step-Up Date the Notes, other than the Subordinated Class E Notes, have not been redeemed in full, the Issuer will, without prejudice to its obligation to apply the Redemption Available Amount in (partial) redemption of the Notes, be obliged to apply an amount equal to the positive difference, if any, between the Interest Available Amount and the sum of all amounts payable by the Issuer in accordance with the Interest Priority of Payments under (a) up to and including (p) (the "**Further Redemption Available Amount**") to redeem (or partially redeem) the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes on each Payment Date after the Step-Up Date on a *pro rata* basis in the following order, (a) firstly, the Senior Class A Notes until fully redeemed, and, thereafter, (b) the Mezzanine Class B Notes until fully redeemed, and, thereafter, (c) the Mezzanine Class C Notes until fully redeemed, and, thereafter, (d) the Junior Class D Notes.

Final Maturity Date for the Notes: Unless previously redeemed, the Issuer will, subject to Condition 9(b), redeem all of the Notes at their respective Principal Amount Outstanding on the Payment Date falling in December 2038.

Redemption for tax reasons: If the Issuer is or will be obliged to make any withholding or deduction for, or on account of, any taxes, duties or charges of whatsoever nature from payments in respect of any Class of Notes as a result of any change in, or amendment to, the laws or regulations of the Netherlands (including any guidelines issued by the tax authorities) or any other jurisdiction or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction), which becomes effective on or after the Closing Date and such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Issuer has the option to redeem the Notes, in whole but not in part, on any Payment Date at their Principal Amount Outstanding, subject to Condition 9(b), together with interest accrued up to and including the date of redemption. No Class of Notes may be redeemed under such circumstances unless the other Classes of Notes (or such of them as are then outstanding) are also redeemed in full at the same time.

Withholding Tax: All payments of, or in respect of, principal of and interest on the Notes will be made without withholding of, or deduction for, or on account of any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments

or charges are required by law. In that event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not pay any additional amounts to such Noteholders. In particular, but without limitation, no additional amounts shall be payable in respect of any Note or Coupon presented for payment, where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to the European Union Directive on the taxation of savings that was adopted on 3 June 2003 or any law implementing or complying with, or introduced in order to conform to, such Directive.

Method of Payment:

For so long as the Notes are represented by a Global Note, payments of principal and interest on the Notes will be made in euros to a common depository for Euroclear and Clearstream, Luxembourg for the credit of the respective accounts of the Noteholders.

Use of proceeds:

The Issuer will use the net proceeds from the issue of the Notes, other than the Subordinated Class E Notes, to pay to the Seller (part of) the Initial Purchase Price for the Mortgage Receivables, pursuant to the provisions of an agreement dated 23 October 2006 (the "**Mortgage Receivables Purchase Agreement**") and made between the Seller, the Issuer and the Security Trustee. See further *Mortgage Receivables Purchase Agreement* below. The proceeds of the issue of the Subordinated Class E Notes will be credited to the Reserve Fund.

THE MORTGAGE RECEIVABLES:

Mortgage Receivables:

Under the Mortgage Receivables Purchase Agreement, the Issuer will on the Closing Date purchase and accept the assignment of any and all rights (the "**Mortgage Receivables**"), of the Seller against certain borrowers (the "**Borrowers**") under or in connection with certain pre-selected Mortgage Loans. The Seller has the benefit of Beneficiary Rights which entitle the Seller to receive the final payment under the relevant Insurance Policies, which payment is to be applied towards redemption of the Mortgage Receivables. Under the Mortgage Receivables Purchase Agreement, the Seller will assign such Beneficiary Rights to the Issuer and the Issuer will accept such assignment.

Mortgage Loans:

The Mortgage Receivables to be sold by the Seller pursuant to the Mortgage Receivables Purchase Agreement will result from loans secured by a first-ranking mortgage right over (i) a real property ("*onroerende zaak*"), (ii) an apartment right ("*appartementsrecht*") or (iii) a long lease ("*erfpacht*"), together with real property and apartment rights, the "**Mortgaged Assets**", situated in the Netherlands and entered into by the Seller and the relevant Borrowers which

meet criteria set forth in the Mortgage Receivables Purchase Agreement and which will be selected prior to or on the Closing Date (the "**Mortgage Loans**"). The Mortgage Loans will consist of interest-only mortgage loans ("*aflossingsvrije hypotheken*"), savings mortgage loans ("*spaarhypotheken*"), linear mortgage loans ("*lineaire hypotheken*"), annuity mortgage loans ("*annuïteitenhypotheken*"), investment-based mortgage loans ("*rendementhypotheken*") or combinations of any of these types of mortgage loans. Mortgage Loans may consist of one or more loan parts ("*leningdelen*"), each of which normally constitutes a different mortgage type agreed with the relevant Borrower. If a Mortgage Loan consists of one or more of such loan parts, the Seller shall sell and assign and the Issuer shall purchase and accept the assignment of all, but not some, loan parts of such Mortgage Loan. See further *Description of Mortgage Loans* below.

Life Insurance Policies:

The interest-only mortgage loans (the "**Interest-only Mortgage Loans**"), to the extent compulsory under the relevant acceptance conditions, have the benefit of combined risk and capital life insurance policies ("**Life Insurance Policies**") taken out by Borrowers with a life insurance company ("**Life Insurance Company**"), which Life Insurance Company may also belong to the SNS REAAL Group. For a description of SNS REAAL Group, see *SNS Bank N.V.* below. See further *Risk Factors* and *Mortgage Receivables Purchase Agreement* below.

Risk Insurance Policies:

Mortgage Loans, to the extent compulsory under the relevant acceptance conditions, have the benefit of an insurance policy containing only a risk insurance policy which pays out upon the death of the insured, but not a capital insurance policy (the "**Risk Insurance Policy**"), which Risk Insurance Policy covers as a minimum the excess over the percentage threshold over the Foreclosure Value of the Mortgaged Assets at which such Insurance Policy becomes compulsory.

Savings Insurance Policies:

A portion of the Mortgage Loans will be in the form of savings mortgage loans ("*spaarhypotheken*", hereinafter "**Savings Mortgage Loans**"), which consist of Mortgage Loans entered into by the Seller and the relevant Borrowers combined with an insurance policy (a "**Savings Insurance Policy**") with the Savings Insurance Company. The Mortgage Receivables relating to the Savings Mortgage Loans will hereinafter be referred to as the "**Savings Mortgage Receivables**". A Savings Insurance Policy is a combined risk and capital insurance policy taken out by the relevant Borrower with the Savings Insurance Company in connection with the relevant Savings Mortgage Loan. Under the Savings Mortgage Loan no principal is paid by the Borrower prior to maturity of the Mortgage Loan. Instead, the Borrower/insured pays premium on a monthly basis, which consists of a risk element and a savings element (the "**Savings Premium**"). The Savings Premium is calculated in such a manner that, on an annuity basis, the proceeds of the

Savings Insurance Policy with the Savings Alternative due by the Savings Insurance Company to the relevant Borrower is equal to the amount due by the Borrower to the Seller at maturity of the Savings Mortgage Loan. Under the Savings Insurance Policy, the Savings Premium is either (i) deposited by the Savings Insurance Company in a savings account held with SNS Bank (the "**Savings Alternative**") or (ii), in respect of a portion of the Savings Mortgage Loans only, at the option of the Borrower invested in certain investment funds of SNS Beleggingsfondsen N.V. (the "**Investment Alternative**"). See further *Risk Factors* and *Description of the Mortgage Loans*.

Repurchase of Mortgage Receivables:

In the Mortgage Receivables Purchase Agreement, the Seller has undertaken to repurchase and accept re-assignment of a Mortgage Receivable:

- (i) on the Mortgage Payment Date immediately following the expiration of the relevant remedy period (as provided in the Mortgage Receivables Purchase Agreement), if any of the representations and warranties given by the Seller in respect of the Mortgage Loans and the Mortgage Receivables, including the representation and warranty that the Mortgage Loans or, as the case may be, the Mortgage Receivables meet certain mortgage loan criteria, are untrue or incorrect in any material respect;
- (ii) on the Mortgage Payment Date immediately following the date on which the Seller agrees with a Borrower to grant a further advance under a Mortgage Loan, which may include a new mortgage loan, which is only secured by the mortgage right which also secures the relevant Mortgage Receivable (the "**Mortgage Loan Further Advance**");
- (iii) on the Mortgage Payment Date immediately following the date on which the Seller agrees with a Borrower to amend the terms of the relevant Mortgage Loan, or part of such Mortgage Loan and as a result thereof such Mortgage Loan no longer meets certain eligibility criteria set forth in the Mortgage Receivables Purchase Agreement ('**Mortgage Loan Amendment**');
- (iv) on the Mortgage Payment Date immediately following the date on which the Seller or the Savings Insurance Company complies with a request from the Borrower under the terms of a Savings Mortgage Loan with a Savings Alternative to switch whole or part of the premia accumulated in the relevant Savings Insurance Policy with the Savings Alternative into the Investment Alternative (the "**Savings Switch**").

The purchase price for the Mortgage Receivable in such event will be equal to the outstanding principal amount of the Mortgage Receivable, together with due and overdue interest and reasonable costs, if any (including any costs incurred by the Issuer in effecting and completing such

purchase and assignment), accrued up to (but excluding) the date of repurchase and re-assignment of the Mortgage Receivable except if:

(i) it concerns a repurchase of the Mortgage Receivables as a result of an amendment of the Mortgage Loan as described in item (iii) above, and

(ii) such Mortgage Receivable is either in arrears for a period exceeding 90 days or in respect of such Mortgage Receivable an instruction has been given to the civil-law notary to publicly sell the Mortgaged Assets,

the purchase price shall be at least the lesser of (i) the sum of an amount equal to the indexed foreclosure value of the Mortgaged Assets, and (ii) the sum of the outstanding principal amount of the Mortgage Receivable, together with accrued interest due but unpaid, if any, and any other amounts due under the Mortgage Receivable.

Clean-Up Call Option:

On each Payment Date the Seller has the option (but not the obligation) to repurchase the Mortgage Receivables if on the Calculation Date immediately preceding such Payment Date the aggregate outstanding principal amount of the Mortgage Receivables is not more than 10 per cent. of the aggregate outstanding principal amount of the Mortgage Receivables on the Closing Date (the "**Clean-Up Call Option**").

The Issuer has undertaken in the Mortgage Receivables Purchase Agreement to sell and assign the Mortgage Receivables to the Seller, or any third party appointed by the Seller at its sole discretion, in case the Seller exercises the Clean-Up Call Option. The proceeds of such sale shall be applied by the Issuer towards redemption of the Notes subject to and in accordance with Conditions 6(b) and 9(b). The purchase price will be calculated as described in *Sale of Mortgage Receivables* in *Credit Structure* below.

Sale of Mortgage Receivables on Optional Redemption Date:

The Issuer will have the right to sell and assign all, but not some, of the Mortgage Receivables on each Optional Redemption Date, provided that the Issuer shall apply the proceeds of such sale, to the extent relating to principal, to redeem the Notes, other than the Subordinated Class E Notes (see *Optional Redemption of the Notes*). The purchase price of each Mortgage Receivable in the event of such sale shall be equal to the outstanding principal amount, together with accrued interest due but unpaid, if any, of each Mortgage Receivable, except that with respect to Mortgage Receivables which are in arrears for a period exceeding 90 days or in respect of which an instruction has been given to the civil-law notary to publicly sell the Mortgaged Assets, the purchase price shall be at least the lesser of (i) an amount equal to the indexed foreclosure value of the Mortgaged Assets and (ii) the sum of the outstanding principal amount of the Mortgage Receivable, together with accrued interest due but unpaid, if any, and any other amounts due under the Mortgage Receivable.

Sub-Participation Agreement

On the Closing Date, the Issuer will enter into a sub-participation agreement (the "**Sub-Participation**

Agreement") with the Savings Insurance Company under which the Savings Insurance Company will acquire participations in the relevant Savings Mortgage Receivables equal to amounts of Savings Premium paid by the relevant Borrower to the Savings Insurance Company in respect of a Savings Insurance Policy with the Savings Alternative. In the Sub-Participation Agreement the Savings Insurance Company will undertake to pay to the Issuer amounts equal to all amounts received as Savings Premium on the Savings Insurance Policies with the Savings Alternative. In return, the Savings Insurance Company is entitled to receive the Participation Redemption Available Amount from the Issuer. The amount of the Participation with respect to a Savings Mortgage Receivable with the Savings Alternative, consists of (a) the initial participation at the Closing Date (which is equal to the sum of all amounts due up to such date to the Savings Insurance Company as Savings Premium and accrued interest), being, in case of the initial participation at the Closing Date, the amount of euro 5,229,217.94, (b) increased on a monthly basis with the sum of (i) amounts equal to the Savings Premium received by the Savings Insurance Company and paid to the Issuer and (ii) a *pro rata* part, corresponding to the Participation in the relevant Savings Mortgage Receivable with the Savings Alternative, of the interest paid by the Borrower in respect of such Savings Mortgage Receivable. See further *Sub-Participation Agreement* below.

Security for the Notes:

The Notes will be secured:

- (i) by a first ranking right of pledge by the Issuer to the Security Trustee over (a) the Mortgage Receivables, including all rights ancillary thereto and (b) the Beneficiary Rights; and
- (ii) by a first ranking right of pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the Cash Advance Facility Agreement, the Administration Agreement, the Sub-participation Agreement, the Swap Agreement and the Floating Rate GIC in respect of the Floating Rate GIC Account.

After delivery of an Enforcement Notice, the amounts payable to the Noteholders and the other Secured Parties will be limited to the amounts available for such purpose to the Security Trustee which, inter alia, will consist of amounts recovered by the Security Trustee in respect of such rights of pledge and amounts received by the Security Trustee as creditor under the Parallel Debt Agreement. Payments to the Secured Parties will be made in accordance with the Priority of Payments upon Enforcement. See further *Credit Structure* and *Description of Security* below.

Parallel Debt Agreement:

On the Closing Date, the Issuer and the Security Trustee will enter into a parallel debt agreement (the "**Parallel Debt Agreement**") for the benefit of the Secured Parties under which the Issuer shall, by way of parallel debt, undertake to

pay to the Security Trustee amounts equal to the amounts due by it to the Secured Parties, in order to create a claim of the Security Trustee thereunder which can be validly secured by the rights of pledge created by the Security Trustee Receivables Pledge Agreement and the Security Trustee Asset Pledge Agreement.

Administration Agreement:

Under the terms of an administration agreement to be entered into on the Closing Date (the "**Administration Agreement**") between the Issuer, the Administrator and the Security Trustee, the Administrator will agree (i) to provide administration and management services in relation to the Mortgage Loans on a day-to-day basis, including, without limitation, the collection of payments of principal, interest and all other amounts in respect of the Mortgage Loans and the implementation of arrears procedures including, if applicable, the enforcement of mortgages (see further *SNS Residential Mortgage Business* below); (ii) to communicate with the Borrowers; (iii) to investigate payment delinquencies; and (iv) to provide certain administration, calculation and cash management services for the Issuer on a day-to-day basis, including without limitation, all calculations to be made pursuant to the Conditions in connection with the Notes.

Cash Advance Facility:

On the Closing Date, the Issuer will enter into a 364 day term cash advance facility agreement with the Cash Advance Facility Provider (the "**Cash Advance Facility Agreement**") under which the Issuer will be entitled to make drawings in order to meet certain shortfalls in its available revenue receipts. See further *Credit Structure* below.

Reserve Fund:

The Issuer will pay the proceeds of the Subordinated Class E Notes to the Floating Rate GIC Account to establish a reserve fund, the purpose of which will be to enable the Issuer to meet the Issuer's payment obligations under items (a) up to and including (n) in the Interest Priority of Payments in the event of a shortfall in the Interest Available Amount on a Calculation Date (the "**Reserve Fund**"). If and to the extent that the Interest Available Amount on any Calculation Date exceeds the amounts required to meet items (a) up to and including (n) of the Interest Priority of Payments, such excess amount will be used to replenish the Reserve Fund by crediting such amount to the Floating Rate GIC Account up to the maximum amount described in *Credit Structure* below.

Floating Rate GIC:

The Issuer and the Floating Rate GIC Provider will enter into a floating rate guaranteed investment contract (the "**Floating Rate GIC**") on the Closing Date, under which the Floating Rate GIC Provider will agree to pay a guaranteed rate of interest determined by reference to Euribor on the balance standing to the credit of the Floating Rate GIC Account from time to time.

Floating Rate GIC Account:	The Issuer shall maintain with the Floating Rate GIC Provider an account (the " Floating Rate GIC Account ") to which on the 8 th business day of each month all amounts of interest, prepayment penalties and principal received under the Mortgage Receivables, will be transferred by the Administrator in accordance with the Administration Agreement.
Swap Agreement:	On or before the Closing Date, the Issuer will enter into an ISDA Master Agreement (which shall include the schedule attached thereto and the confirmation evidencing the transaction thereunder) with the Swap Counterparty (the " Swap Agreement ") to hedge the basis risk between the interest to be received by the Issuer on the Mortgage Receivables and the floating rate of interest payable by the Issuer on the Notes (see <i>Credit Structure</i> below).
Management Agreements:	Each of the Issuer, the Security Trustee and the Shareholder have entered into a management agreement (together the " Management Agreements ") with the relevant Director, under which the relevant Director will undertake to act as director of the Issuer, the Security Trustee or the Shareholder, respectively, and to perform certain services in connection therewith.

CREDIT STRUCTURE

The structure of the credit arrangements for the proposed issue of the Notes may be summarised as follows.

Mortgage Loan Interest Rates

The Mortgage Receivables sold and assigned to the Issuer on the Closing Date bear interest on the basis of any of the following alternatives: (i) fixed rate, whereby the rates can be fixed for a specific period between 1 to 30 years; (ii) floating rate; or (iii) slight variations to any of the above (as further described in *Description of Mortgage Loans* below). The Mortgage Loan Criteria permit Mortgage Receivables bearing alternative types of interest offered by the Seller.

The actual amount of revenue received by the Issuer under the Mortgage Receivables Purchase Agreement will vary during the life of the Notes as a result of the level of delinquencies, defaults, repayments and prepayments in respect of the Mortgage Receivables. Similarly, the actual amounts payable under the Interest Priority of Payments will vary during the life of the transaction as a result of fluctuations in Euribor and possible variations in certain other costs and expenses of the Issuer. The eventual effect of such variations could lead to drawings, and the replenishment of such drawings, under the Reserve Fund and the Cash Advance Facility and to non-payment of certain items under the Interest Priority of Payments.

Cash Collection Arrangements

Payments by the Borrowers under the Mortgage Loans are due and payable on the first day of each month, with interest being payable in arrear. All payments made by Borrowers will be paid into the collection account (the "**Seller Collection Account**") maintained with the Seller (in this capacity the "**Seller Collection Account Provider**"). The Seller Collection Account will also be used for the collection of moneys paid in respect of mortgage loans other than the Mortgage Loans and in respect of other moneys belonging to the Seller.

If the rating of the short-term, unsecured and unguaranteed debt obligations of the Seller Collection Account Provider falls below Prime-1 by Moody's, A-1 by S&P or F1 by Fitch (the "**Short Term Requisite Rating in respect of the Seller Collection Account Provider**"), the Seller will, to maintain the then current rating assigned to the Notes, either: (i) ensure that payments to be made in respect of amounts received on the Seller Collection Account relating to the Mortgage Receivables will be guaranteed by a party having at least the Short Term Requisite Rating in respect of the Seller Collection Account Provider; or (ii) (a) open an escrow account in the name of the Issuer, for its own account, with a party having at least the Short Term Requisite Rating in respect of the Seller Collection Account Provider, and (b) transfer to the escrow account an amount equal to the highest single amount of principal, interest and pre-payment penalties received in respect of the Mortgage Receivables since the Closing Date on the Floating Rate GIC Account during one Mortgage Calculation Period; or (iii) implement any other actions agreed at that time with S&P, Moody's and Fitch.

If on any Payment Date the balance standing to the credit of the Seller Collection Account is higher than 20 per cent. of the aggregate Principal Amount Outstanding of the Notes on such Payment Date (the "**Seller Collection Account Excess Balance**"), the Seller will be required as soon as reasonably possible, but at least within 30 days to either (a) transfer the Seller Collection Account Excess Balance to an alternative bank with a minimum rating of A-1+ by S&P and F1 by Fitch or (b) invest the Seller Collection Account Excess Balance in Eligible Investments. "**Eligible Investments**" are short-term unsecured euro-denominated debt obligations (including commercial paper) issued by an issuing entity of which the unsecured and unguaranteed debt obligations are assigned a rating of Prime-1 by Moody's and A-1+ by S&P and, in case of short-term unsecured euro-denominated debt obligations of less than 30 days, F1 by Fitch and in case of short-term unsecured euro-denominated debt obligations between 30 days and 365 days, F1+ by Fitch (or, in case such debt obligations are guaranteed, the unsecured and unguaranteed debt obligations of the guarantor are assigned a rating of Prime-1 by Moody's and A-1+ by S&P), provided that such Eligible Investments may not have a maturity beyond the immediately succeeding Payment Date.

On each "**Mortgage Payment Date**" (being the 8th business day following each Mortgage Calculation Period End Date (defined below)) the Administrator shall transfer all amounts of principal, interest and prepayment penalties received by the Seller in respect of the Mortgage Receivables and paid to the Seller Collection Account during the immediately preceding Mortgage Calculation Period, to the Floating Rate GIC Account.

For these purposes a "**Mortgage Calculation Period**" is the period commencing on (and including) the first day of each calendar month and ending on (and including) the last day of such calendar month (the "**Mortgage Calculation Period End Date**"), except for the first Mortgage Calculation Period which will commence on (and includes) the Cut-off Date and ends on (and includes) 30 November 2006.

Floating Rate GIC Account

The Issuer will maintain with the Floating Rate GIC Provider the Floating Rate GIC Account to which all amounts received (i) in respect of the Mortgage Receivables and (ii) from the Savings Insurance Company under the Sub-Participation Agreement and (iii) from the other parties to the Relevant Documents will be paid.

The Administrator will identify all amounts paid into the Floating Rate GIC Account by crediting such amounts to ledgers established for such purpose. Payments received on each Mortgage Payment Date in respect of the Mortgage Loans will be identified as principal or revenue receipts and credited to a principal ledger (the "**Principal Ledger**") or a revenue ledger (the "**Revenue Ledger**"), as the case may be. Further ledgers will be maintained to record amounts held in the Floating Rate GIC in respect of the balance of the Reserve Fund and certain drawings made under the Cash Advance Facility (see further *Cash Advance Facility* below).

Payments may be made from the Floating Rate GIC Account other than on a Payment Date only to satisfy (i) amounts due to third parties (other than pursuant to the Relevant Documents) and under obligations incurred in connection with the Issuer's business and (ii) amounts due to the Savings Insurance Company under the Sub-Participation Agreement.

If at any time the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Floating Rate GIC Provider are assigned a rating of less than A-1 by S&P and/or Prime-1 by Moody's and/or F1 by Fitch or any such rating is withdrawn by S&P, Moody's and/or Fitch, the Issuer will be required within 30 days of such reduction or withdrawal of such rating to (i) transfer the Floating Rate GIC Account to an alternative Floating Rate GIC provider with the required minimum rating or (ii) find any other solution acceptable to S&P, Moody's and Fitch to maintain the then current ratings assigned to the Notes.

If any collateral in the form of cash is provided by the Swap Counterparty to the Issuer, the Issuer will be required to open a separate account in which such cash provided by the Swap Counterparty will be held. If any collateral in the form of securities is provided, the Issuer will be required to open a custody account in which such securities provided by the Swap Counterparty will be held. No payments or deliveries may be made in respect of such accounts other than in relation to the provision of collateral or the return of Excess Swap Collateral, unless pursuant to the termination of the Swap Agreement, an amount is owed by the Swap Counterparty to the Issuer, in which case, the collateral may be applied in accordance with the Trust Deed. See further *Interest Rate Hedging* below.

"Excess Swap Collateral" means an amount equal to the value of any collateral transferred to the Issuer by the Swap Counterparty under the Swap Agreement that is in excess of the Swap Counterparty's liability to the Issuer thereunder (i) as at the date such Swap Agreement is terminated or (ii) as at any other date of valuation in accordance with the terms of the Swap Agreement.

Any amounts remaining in such accounts upon termination of the Swap Agreement which are not owed to the Issuer by the Swap Counterparty shall be transferred directly to the Swap Counterparty on the termination date under the Swap Agreement.

Any drawing under the Cash Advance Facility by the Issuer shall only be made on a Payment Date if and to the extent that, after the application of amounts available in the Reserve Fund and without taking into account any drawing under the Cash Advance Facility Agreement, there is a shortfall in the Interest Available Amount to meet items (a) to (l) (inclusive) (but not items (g), (i) or (k)) in the Interest Priority of Payments in full on that Payment Date, provided that no drawing may be made to meet items (h), (j) or (l) to the extent that, after the application of the Interest Available Amount, in respect of item (h) a debit balance would remain on the Class B Principal Deficiency Ledger and, in respect of item (j), a debit balance would remain on the Class C Principal Deficiency Ledger and, in respect of item (l), a debit balance would remain on the Class D Principal Deficiency Ledger. The Cash Advance Facility Provider will rank in priority in respect of payments and security to the Notes.

If, at any time, (i) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Cash Advance Facility Provider are assigned a rating of less than A-1 by S&P and/or Prime-1 by Moody's and/or F1 by Fitch or any such rating is withdrawn by S&P, Moody's or Fitch, (ii) the Cash Advance Facility is not replaced by the Issuer with a suitable alternative Cash Advance Facility Provider acceptable to S&P, Moody's or Fitch within 30 days of such downgrading or withdrawal and (iii) no other actions agreed with S&P, Moody's and Fitch at that time have been implemented, the Issuer will be required forthwith to draw down the entirety of the undrawn portion of the Cash Advance Facility (a "**Cash Advance Facility Stand-by Drawing**") and credit such amount to the Floating Rate GIC Account with a corresponding credit to a ledger to be known as the "**Cash Advance Facility Stand-by Ledger**". Amounts so credited to the Floating Rate GIC Account may be utilised by the Issuer in the same manner as a drawing under the Cash Advance Facility if the Cash Advance Facility had not been so drawn. A Cash Advance Facility Stand-by Drawing shall also be made if the Cash Advance Facility is not renewed following its commitment termination date.

For these purposes, "**Cash Advance Facility Maximum Amount**" means euro 22,000,000.

Reserve Fund

The proceeds of the Subordinated Class E Notes, being euro 40,700,000, will be credited to the Reserve Fund on the Closing Date. The Reserve Fund consists of funds credited to the Floating Rate GIC Account and does not constitute an asset which is separated from the other assets of the Issuer.

Amounts credited to the Reserve Fund Ledger will be available on any Payment Date to meet items (a) to (n) (inclusive) of the Interest Priority of Payments, before application of any funds drawn under the Cash Advance Facility.

If and to the extent that the Interest Available Amount on any Calculation Date exceeds the amounts required to meet items ranking higher than item (o) in the Interest Priority of Payments, the excess amount will be used to replenish the Reserve Fund by paying such amount to the Floating Rate GIC Account (with a corresponding credit to the Reserve Fund Ledger) until the balance standing to the credit of the Reserve Fund Ledger equals the maximum amount defined below (the "**Reserve Fund Required Amount**").

On the Closing Date, the Reserve Fund Required Amount shall be equal to euro 40,700,000. On any Calculation Date following the Closing Date the Reserve Fund Required Amount shall be equal to 1.85 per cent. of the aggregate Principal Amount Outstanding of the Notes, other than the Subordinated Class E Notes, provided that the Reserve Fund Required Amount shall only decrease on the Payment Date falling in December 2009 and any Payment Date thereafter, if and to the extent that each of the following conditions are met:

- (a) the outstanding principal amount of all Mortgage Receivables which are in arrears for a period exceeding 90 days is equal to or less than 2.0 per cent. of the aggregate outstanding principal amount of all Mortgage Receivables;
- (b) there is no debit balance on the Principal Deficiency Ledger;
- (c) after the first Optional Redemption Date, the outstanding principal amount of all Mortgage Receivables is equal to or greater than 10 per cent. of the outstanding principal amount of all Mortgage Receivables at the Closing Date;
- (d) the weighted average seasoning of all Mortgage Loans is greater than 46 months; and
- (e) the Reserve Fund Required Amount will not be lower than euro 11,000,000.

To the extent that the balance standing to the credit of the Reserve Fund Ledger on any Calculation Date exceeds the Reserve Fund Required Amount, such excess shall be drawn from the Floating Rate GIC Account (with a corresponding debit to the Reserve Fund Ledger) on the immediately succeeding Payment Date and shall form part of the Interest Available Amount on that Payment Date.

At the Payment Date on which all amounts of interest and principal due in respect of the Notes, except for principal in respect of the Subordinated Class E Notes, have been or will be paid, the Reserve Fund Required Amount will be reduced to zero and any amount standing to the credit of the Reserve Fund Ledger will thereafter form part of the Interest Available Amount and will be available for all items in the Interest Priority of Payments ranking below item (o).

Further Redemption Ledger

The Issuer will apply the Further Redemption Available Amount, to partially redeem the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes on a *pro rata* basis on each Payment Date falling after the Step-Up Date in the following order, (a) firstly, the Senior Class A Notes until fully redeemed, and, thereafter, (b) the Mezzanine Class B Notes until fully redeemed, and, thereafter, (c) the Mezzanine Class C Notes until fully redeemed, and, thereafter, (d) the Junior Class D Notes. Any amounts so applied will be recorded on a ledger known as the "**Further Redemption Ledger**", comprising of four sub-ledgers for each of the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes and on each of which sub-ledgers any Further Redemption Available Amount applied in redemption of the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and/or the Junior Class D Notes will be recorded. After the Step-Up Date, any Realised Losses on the Mortgage Receivables will first be debited to the Further Redemption Ledger until the credit balance on such ledger will be zero and further losses on the Mortgage Receivables will be recorded on the Principal Deficiency Ledger.

Principal Deficiency Ledger

A Principal Deficiency Ledger comprising four sub-ledgers, known as the "**Class A Principal Deficiency Ledger**", the "**Class B Principal Deficiency Ledger**", the "**Class C Principal Deficiency Ledger**" and the "**Class D Principal Deficiency Ledger**" (together the "**Principal Deficiency Ledger**" respectively, will be established by or on behalf of the Issuer in order to record any Realised Losses on the Mortgage Receivables (each respectively the "**Class A Principal Deficiency**", the "**Class B Principal Deficiency**", the "**Class C Principal Deficiency**" and the "**Class D Principal Deficiency Ledger**", and together a "**Principal Deficiency**"). Any Principal Deficiency shall be debited to the Class D Principal Deficiency Ledger (such debit items being recredited at item (m) of the Interest Priority of Payments) so long as the debit balance on such sub-ledger is less than the Principal Amount Outstanding of the Junior Class D Notes (the "**Class D Principal Deficiency Limit**") and thereafter such amounts shall be debited to the Class C Principal Deficiency Ledger (such debit items being recredited at item (k) of the Interest Priority of Payments) so long as the debit balance on such sub-ledger is less than the Principal Amount Outstanding of the Mezzanine Class C Notes (the "**Class C Principal Deficiency Limit**") and thereafter such amounts shall be debited to the Class B Principal Deficiency Ledger (such debit items being recredited at item (i) of the Interest Priority of Payments) so long as the debit balance on such sub-ledger is less than the Principal Amount Outstanding of the Mezzanine Class B Notes (the "**Class B Principal Deficiency Limit**") and thereafter such amounts shall be debited to the Class A Principal Deficiency Ledger (such debit items being recredited at item (g) of the Interest Priority of Payments).

Any Realised Losses on the Mortgage Receivables will after the Step-Up Date only be debited to the Principal Deficiency Ledger if and to the extent that such Realised Losses exceed the aggregate Further Redemption Available Amount, if any, applied to the Senior Class A Notes and/or the Mezzanine Class B Notes and/or the Mezzanine Class C Notes and/or the Junior Class D Notes, as recorded on the Further Redemption Ledger.

"**Realised Losses**" means, on any relevant Calculation Date, the sum of (a) the amount of the difference between (i) the aggregate outstanding principal amount of all Mortgage Receivables, less, with respect to the Savings Mortgage Receivables with the Savings Alternative, the Participations, in respect of which the Seller, the Administrator on behalf of the Issuer, the Issuer or the Security Trustee has foreclosed from the Closing Date up to and including such Calculation Date and (ii) the amount of the Net Proceeds applied to reduce the outstanding principal amount of the Mortgage Receivables and (b), with respect to the Mortgage Receivables sold by the Issuer, the amount of the difference, if any, between (i) the aggregate outstanding principal amount in respect of such Mortgage Receivables, less, with respect to Savings Mortgage Receivables with the Savings Alternative, the Participations, and (ii) the purchase price of the Mortgage Receivables sold to the extent relating to principal, less, with respect to the Savings Mortgage Receivables with the Savings Alternative, the Participations, whereby, in case of items (a) and (b), for the purpose of establishing the outstanding principal amount in case of set-off or defence to payments asserted by Borrowers any amount by which the Mortgage Receivables have been extinguished ("*teniet gegaan*") will be disregarded.

Interest Rate Hedging

The Mortgage Loan Criteria require that all Mortgage Receivables sold and assigned to the Issuer at Closing either bear (i) a fixed rate of interest, (ii) a floating rate of interest or (iii) slight variations to any of the above (as further described in *Description of the Mortgage Loans* below). The Mortgage Loan Criteria permit Mortgage Receivables bearing alternative types of interest offered by the Seller. The interest rate payable by the Issuer with respect to the Notes is calculated as a margin over Euribor. The Issuer will hedge this interest rate exposure by entering into the Swap Agreement with the Swap Counterparty. Under the Swap Agreement, the Issuer will agree to pay on each Payment Date amounts equal to the scheduled interest on the Mortgage Receivables less, with respect to each Savings Mortgage Receivable with the Savings Alternative, an amount equal to the scheduled interest multiplied by the Participation Fraction, plus the interest accrued on the Floating Rate GIC Account and any prepayment penalties received less (i) an excess margin of 0.45 per cent. per annum applied to the outstanding principal amount of the Mortgage Receivables as of the first day of the immediately preceding Calculation Period and (ii) an amount equal to the expenses as described under (a), (b) and (c) of the Interest Priority of Payments on the first day of the relevant Interest Period.

The Swap Counterparty will agree to pay on each Payment Date amounts equal to the aggregate scheduled interest due under the Notes on such Payment Date, and calculated by reference to the Floating Rate of Interest for each Class of Notes applied to an amount equal to: (i) the Principal Amount Outstanding of the relevant Class of Notes on the first day of the relevant Interest Period, less (ii) (a) for each of the Senior Class A Notes, Mezzanine Class B Notes, Mezzanine Class C Notes and Junior Class D Notes an amount equal to the balance standing on the relevant Principal Deficiency Ledger, if any, on the first day of the relevant Interest Period and, (b) with respect to the Subordinated Class E Notes, if there is a balance standing on the Class D Principal Deficiency Ledger on the first day of the relevant Interest Period, an amount equal to the Principal Amount Outstanding of the Subordinated Class E Notes.

Payments under the Swap Agreement will be netted.

Downgrade of Swap Counterparty

- (i) Pursuant to the Swap Agreement, if, at any time, (a) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty are assigned a rating of less than A-1 by S&P (the "**S&P Required Rating**"), or (b) any such rating is withdrawn by S&P, then the Swap Counterparty will be obliged, immediately upon such reduction or withdrawal of any such rating, to use its best endeavours to and in any case within ten (10) business days of such reduction or withdrawal of any such rating (at the option of the Swap Counterparty) (i) at its own cost, transfer and assign its rights and obligations under the Swap Agreement to a third party having at least the S&P Required Rating; or (ii) find any other solution acceptable to S&P to maintain the then current rating of the Notes. The Swap Counterparty will actively pursue efforts to accomplish the solution mentioned above under either (i) or (ii) and will, prior thereto, continue to perform its obligations under the Swap Agreement. If within ten (10) business days after the occurrence of a downgrade or withdrawal, the Swap Counterparty has not transferred its rights and obligations to a third party having at least the S&P Required Rating, then the Swap Counterparty shall, and until such third party is found, at its own cost put in place a mark-to-market collateral agreement in a form and substance acceptable to S&P (which may be based on the credit support documentation published by ISDA, or otherwise, and relates to collateral in the form of cash or securities or both (the "**Collateral Amount**") in support of its obligations under the Swap Agreement, which complies with, in relation to the Collateral Amount, published criteria set by S&P, or any other amount which might be agreed with S&P.

- (ii) Pursuant to the Swap Agreement, if, at any time, (i) the long-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as A2 (or its equivalent) by Moody's or (ii) the short-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as Prime-1 (or its equivalent) by Moody's (and, at such time, the long-term, unsecured and unsubordinated debt obligations of any co-obligor to the Swap Counterparty are not rated as high as A2 (or its equivalent) by Moody's or the short-term, unsecured and unsubordinated debt obligations of such co-obligor are not rated as high as Prime-1 (or its equivalent) by Moody's (such ratings together the "**Moody's Required Ratings I**")), then the Swap Counterparty will, on a reasonable efforts basis and at its own cost attempt to:
 - (a) transfer all of its rights and obligations with respect to the Swap Agreement to either (x) a replacement third party with the Moody's Required Ratings I domiciled in the same legal jurisdiction as the Swap Counterparty or the Issuer or (y) a replacement third party agreed by Moody's; or
 - (b) procure another person to become co-obligor in respect of the obligations of the Swap Counterparty under the Swap Agreement. Such co-obligor may be either (x) a person with the Moody's Required Ratings I domiciled in the same legal jurisdiction as the Swap Counterparty or the Issuer, or (y) a person agreed by Moody's; or
 - (c) take such other action as the Swap Counterparty may agree with Moody's; or
 - (d) at its own cost within thirty (30) days of the occurrence of such downgrade, put in place a mark-to-market collateral agreement in a form and substance acceptable to Moody's (which may be based on the credit support documentation published by ISDA, or otherwise, and relates to collateral in the form of cash or securities or both) in

support of its obligations under the Swap Agreement which complies with, in relation to the Collateral Amount, certain published criteria set by Moody's or any other amount which might be agreed with Moody's.

If any of (a), (b) or (c) of this item (ii) are satisfied at any time, all collateral (or the equivalent thereof, as appropriate) transferred by the Swap Counterparty pursuant to (d) of this item (ii) will be retransferred (outside of the Interest Priority of Payments) to the Swap Counterparty and the Swap Counterparty will not be required to transfer any additional collateral.

- (iii) Pursuant to the Swap Agreement, if, at any time, (i) the long-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as A3 (or its equivalent) by Moody's or (ii) the short-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as Prime-2 (or its equivalent) by Moody's (such ratings together the "**Moody's Required Ratings II**") (and, at such time, the long-term, unsecured and unsubordinated debt obligations or the short-term, unsecured and unsubordinated debt obligations of any co-obligor to the Swap Counterparty are not rated as high as the Moody's Required Ratings I, then the Swap Counterparty will, on a best efforts basis and at its own cost attempt to take the action described under (a), (b), (c) and (d) of item (ii) above, save that:
- (i) in the event that the Swap Counterparty is unable to comply with (a), (b) or (c) of item (ii) above within such thirty (30) day period it will continue, on a best efforts basis, to comply with the same; and
 - (ii) the action described under (d) above will apply immediately after the Swap Counterparty ceases to be rated at least as high as the Moody's Required Ratings II.

In case of the Swap Counterparty ceases to be rated at least as high as the Moody's Required Ratings II the criteria for the Collateral Amount will be stricter if it ceases to be rated at least as high as the Moody's Required Ratings I.

- (iv) Pursuant to the Swap Agreement, if, at any time, (a) the long-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty cease to be rated at least as high as A by Fitch, or (b) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty cease to be rated at least as high as F1 by Fitch (such ratings together the "**Fitch Required Ratings**" and events (a) or (b) a "**Fitch Downgrade**"), or (c) any such rating is withdrawn by Fitch, then the Swap Counterparty will, within thirty (30) days of such reduction or withdrawal of any such rating, (i) obtain a third party, having the Fitch Required Ratings, to guarantee the obligations of the Swap Counterparty under the Swap Agreement, or (ii) provide credit support sufficient to maintain the then current rating of the Notes which would have subsisted but for the Fitch Downgrade, or (iii) transfer and assign its rights and obligations under the Swap Agreement to a third party having the Fitch Required Ratings or (iv) find any other solution necessary to assist the Issuer or take such other action as the Swap Counterparty may agree with Fitch as will result in the ratings of the Notes then outstanding being restored to or maintained at the level that were at immediately prior to the Fitch Downgrade, in each case in accordance with and subject to the provisions of the Swap Agreement and the Trust Deed.

The mark-to-market collateral agreement in relation to the credit support referred to in (ii) under this item (iv) must be in a form and substance acceptable to Fitch (which may be based on the credit support documentation published by ISDA, or otherwise, and relates to collateral in the form of cash or securities or both) in support of the Swap Counterparty's obligations under the Swap Agreement, which complies with, in relation to the Collateral Amount, certain published criteria set by Fitch or any other amount which might be agreed with Fitch.

If any of (i), (iii) or (iv) of this item (iv) are satisfied at any time, all collateral (or the equivalent thereof, as appropriate) transferred by the Swap Counterparty pursuant to (ii) under this item (iv) will be retransferred (outside of the Interest Priority of Payments) to the Swap

Counterparty and the Swap Counterparty will not be required to transfer any additional collateral.

- (v) Pursuant to the Swap Agreement, if at any time, (a) the long-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty are assigned a rating of less than BBB+ by Fitch, or (b) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty are assigned a rating of less than F2 by Fitch or (c) any such rating is withdrawn by Fitch (a "Fitch F2 Downgrade"), then the Swap Counterparty will, at its own cost, within thirty (30) days of such reduction or withdrawal of any such rating, (a) obtain a third party having the Fitch Required Ratings, to guarantee the obligations of the Swap Counterparty under the Swap Agreement, or (b) transfer and assign its rights and obligations under the Swap Agreement to a third party having the Fitch Required Ratings, or (c) find any other solution necessary to assist the Issuer or take such other action as the Swap Counterparty may agree with Fitch as will result in the rating of the Notes then outstanding being restored to or maintained at the level they were at immediately prior to the Fitch F2 Downgrade, in each case in accordance with and subject to the provisions of the Swap Agreement and the Trust Deed.

Pending compliance with any one of (a), (b) or (c) of this item (v), following the occurrence of a Fitch F2 Downgrade, the Swap Counterparty shall put in place or (as the case may be) continue to post collateral to the Issuer pursuant to a mark-to-market collateral arrangement described in (ii) of item (iv) above in support of its obligations under the Swap Agreement.

If any of (a), (b) or (c) of this item (v) are satisfied at any time, all collateral (or the equivalent thereof, as appropriate) transferred by the Swap Counterparty will be retransferred (outside of the Interest Priority of Payments) to the Swap Counterparty and the Swap Counterparty will not be required to transfer any additional collateral.

- (vi) Pursuant to the Swap Agreement, if at any time, (a) the long-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty or (b) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty are assigned a rating of less than investment grade by Fitch or (c) any such rating is withdrawn by Fitch, then the Swap Counterparty will, at its own cost, within 30 days of such reduction or withdrawal of any such rating, (a) obtain a third party having the Fitch Required Ratings to guarantee the obligations of the Swap Counterparty under the Swap Agreement, or (b) transfer and assign its rights and obligations under the Swap Agreement to a third party having the Fitch Required Ratings.

Sale of Mortgage Receivables

Under the terms of the Trust Deed, the Issuer will have the right to sell and assign all but not some of the Mortgage Receivables on each Optional Redemption Date, provided that the Issuer shall apply the proceeds of such sale to redeem the Notes, other than the Subordinated Class E Notes (see Condition 6(e)) (see also *Risk that the Issuer will not exercise its right to redeem the Notes at the Optional Redemption Dates* in *Risk Factors* above). Under the terms of the Trust Deed, the Issuer will also have the right to sell and assign all, but not some, of the Mortgage Receivables, if the Issuer exercises its option to redeem the Notes for tax reasons in accordance with Condition 6(i). Furthermore, under the terms of the Mortgage Receivables Purchase Agreement, the Issuer shall be obliged to sell and assign the Mortgage Receivables to the Seller, or any third party appointed by the Seller at its sole discretion, if the Seller exercises its Clean-Up Call Option. The purchase price of each Mortgage Receivable in the event of such sale shall be equal to the outstanding principal amount, together with accrued interest due but unpaid up to the Mortgage Calculation Period End Date preceding the date of such sale, if any, in respect of each Mortgage Receivable, except that with respect to Mortgage Receivables which are in arrears for a period exceeding 90 days or in respect of which an instruction has been given to the civil-law notary to start foreclosure proceedings, the purchase price shall be at least the lesser of (i) an amount equal to the indexed foreclosure value of the Mortgaged Assets and (ii) the sum of the outstanding principal amount of the Mortgage Receivable, together with accrued interest due but unpaid, if any, and any other amounts due under the Mortgage Receivable.

OVERVIEW OF THE DUTCH RESIDENTIAL MORTGAGE MARKET

Market

One of the most important factors influencing the Dutch residential mortgage market is the fiscal policy. In the Netherlands, interest on mortgage loans is tax deductible if the mortgage loan proceeds are used for the purchase or improvement of the first home. The mortgage interest is deductible for a period of 30 years. As a result of this tax treatment many borrowers choose to fully benefit from the tax deductibility and take out the maximum possible mortgage loan. This results in a relative high outstanding mortgage debt per capita.

Lenders

Banks are the main mortgages lenders in the Netherlands, followed by insurers and other financial institutions such as pension funds and building funds. The top twelve lenders provide more than 80 per cent. of the mortgage loans. These mortgages are offered through branches, call centres, the internet and to an increasing extent via intermediaries.

Mortgage products

In the Netherlands, the typical (legal) term of a mortgage loan is 30 years. It is very common that the mortgage loan consists of several mortgage parts, each of which has its own characteristics. Because of the fiscal treatment, mortgage loans with no redemption on the principal such as investment-based mortgages, savings mortgages and interest-only mortgages are most popular. Under these mortgages no principal is repaid during the term of the contract. Instead, the Borrower makes payments in a saving account, endowment insurance or investment fund. Upon maturity the loan is repaid with the money in the savings account, the insurance contract or the investment fund respectively.

Interest type

Although the 5 and 10-year fixed interest rate have been most popular, there is an increasing appetite for other types, like short term fixed rates and variable rates. Some lenders also offer capped and collar type of interest rates.

House price developments

Fiscal benefits, economic growth and demographic factors (decreasing number of persons per household) have caused an increasing demand for Dutch houses. Along with the declining interest rates in the past decade, this has resulted in a strong upward trend for Dutch house prices as is illustrated in the graph below. Although the average house price has increased less rapidly in the past two to three years compared to the years before, there is still a positive trend.

Prepayment

Borrowers are allowed to prepay between 10 to 20 per cent. free of penalty per year. In addition full prepayment without penalty can only be made at times of interest rate resetting, on sale of the property or in case of death of the borrower. Otherwise a penalty is calculated as the net present value of the difference between the contract rate and the applicable market rate. Interest rates have decreased over the past decade, which has made it attractive for borrowers to refinance their mortgage loans. The increasing role of intermediaries also had a stimulating effect on prepayments.

Default losses have been relatively low

Despite the relatively high loan-to-foreclosure value ("**LtFV**") ratios, default losses have always been relatively low. During the decrease in house prices (1978-1982) losses peaked up to 30 basis points on an annual basis. In the following years losses have been negligibly low. Currently default losses are showing an upward trend due to a weakening economy during recent years and a slowdown in house price increases.

In the Netherlands the value of the property is measured as the foreclosure value, which is the estimated forced sale value. The foreclosure value is about 85 to 90 per cent. of the market value. The typical maximum LtFV is 125-130 per cent.

Bureau for credit registration (BKR)

The Bureau for Credit Registration ("*Bureau Krediet Registratie*", or "**BKR**") was founded in 1965 by financial institutions to take care of central credit registration. At BKR almost all credit obligations of retail clients in the Netherlands are registered. Credits are registered as of origination until a period of five years after maturity. Before providing a mortgage loan, lenders are obligated to check the history of the borrower in order to prevent overborrowing from the client and to limit the risks for the lender.

SNS BANK N.V.

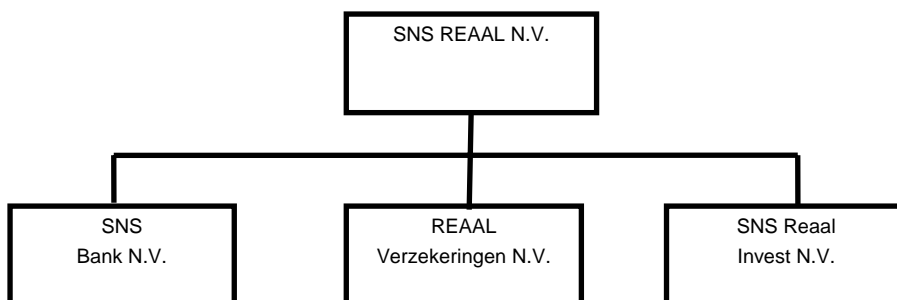

Incorporation

SNS Bank N.V. a public limited liability company (*naamloze vennootschap*) was incorporated under Dutch law on 18th December, 1990 as a result of the merger of several regional savings banks. The corporate seat of SNS Bank is in Utrecht, The Netherlands. The registered office of SNS Bank is Croeselaan 1, 3521 BJ, Utrecht and SNS Bank is registered in the Commercial Register of the Utrecht Chamber of Commerce (*handelsregister van de Kamer van Koophandel en Fabrieken in Utrecht*), under number 16062338. The telephone number of SNS Bank is +31(0)30 291 5100. The Articles of Association of SNS Bank were last amended by notarial deed on 13 January 2003 before a duly authorised substitute of Mr. P. Klemann, civil law notary in Amsterdam, the draft of these articles having received the approval of the Minister of Justice, number 394.723.

Ownership

SNS Bank is a 100% subsidiary of SNS REAAL N.V. ("SNS REAAL") and is part of the group formed by SNS REAAL and its subsidiaries ("SNS REAAL Group"). SNS REAAL is the result of a merger in May 1997 between SNS Groep N.V. (primarily a banking group) and Reaal Groep N.V. (primarily an insurance group). As of 27 July 2005 all of the shares issued by SNS REAAL were held by Stichting Beheer SNS REAAL. Prior thereto all but one of the shares issued by SNS REAAL were held by Stichting Administratiekantoor SNS Reaal, a trust office. All of the non-voting depositary receipts issued by Stichting Administratiekantoor SNS Reaal and one priority share issued by SNS REAAL were owned by Stichting Beheer SNS REAAL.

SNS REAAL was of the view that the certification of its shares was no longer in keeping with the spirit of our times as reflected by the Dutch Corporate Governance Code (*Code Tabaksblat*), among other things. SNS REAAL has therefore decided to deregister the depositary receipts. Stichting Administratiekantoor SNS Reaal has ceased to exist, after decertification of the shares. The priority share was converted into one ordinary share by amendment of the articles of association of SNS REAAL on 3 May 2006. SNS REAAL's share capital is currently comprised of ordinary shares only.

On 18 May 2006 69,989,172 ordinary shares ("Shares") of SNS REAAL were listed on Eurolist by Euronext Amsterdam as part of the initial public offering ("IPO") of SNS REAAL. The IPO consisted of an offering by SNS REAAL of 24,496,210 new Shares and an offering by the selling shareholder, Stichting Beheer SNS REAAL, of 45,492,962 existing Shares. On 22 May 2006, the underwriters of the IPO, fully exercised the over-allotment option to require the selling shareholder, Stichting Beheer SNS REAAL, to sell an additional 10,498,376 existing ordinary Shares.

Stichting Beheer SNS REAAL owns approximately 65.5% of SNS REAAL's outstanding share capital after the exercise of the over-allotment option. The total number of ordinary shares offered in the course of the IPO was therefore 80,487,548, consisting of 24,496,210 new ordinary shares and 55,991,338 existing ordinary shares. Immediately after the IPO, SNS REAAL had 233,297,240 ordinary shares outstanding.

SNS REAAL raised approximately €416 million of gross proceeds from the IPO. It intends to use the net proceeds from the offering entirely for general corporate purposes to sustain growth and capture new growth opportunities, both organically and through selected acquisitions.

SNS REAAL Group

The combination of SNS Bank and REAAL Verzekeringen N.V. ("REAAL") forms the seventh-largest financial institution in the Netherlands, with total assets of more than €68,0 billion (31 December 2005). The strategy of SNS REAAL Group is focused on creating a fully integrated bank insurance institution, with the possibility to use its combined marketing efforts and skills. This "all finance" concept is offered through a wide range of distribution channels using strongly positioned labels. Distribution of bank and insurance products is done through the physical branch network of SNS Bank and a network of independent intermediaries retained by REAAL. In addition the internet and call centres are increasingly important for distributing financial products. Furthermore the combination has involved the following:

- A single group management centre has been established in Utrecht, and board linkages have been created between the banking and insurance operations - the chairmen of each are also the deputy chairmen of the other;
- Centralisation of staff departments within the Group such as risk management, audit, finance, legal compliance, fiscal affairs and human resources; and
- Creation of centralised competence centres and service centres.

Company Structure and Profile

SNS Bank N.V. is a Dutch branch-based retail banking organisation, concentrating on savings, mortgages and services to small and medium sized enterprises (SMEs) in the Netherlands. Besides a network of approximately 180 branches SNS Bank uses intermediaries, a call centre, and the internet to generate business. Its focus is the domestic retail market plus small and medium size companies and institutions with a local or domestic scope. SNS Bank offers a full range of banking and insurance products and services to its clients. In terms of volume, residential mortgages form the major part of SNS Bank's assets. Due to innovative mortgage products SNS Bank has shown a good performance in terms of relative growth of the mortgage business during recent years. SNS Bank also shows an increasing sales of insurance products through its branch network. Professional wholesale activities have been developed within SNS Securities N.V. After the merger of SNS Groep N.V. with REAAL Groep N.V. all asset management activities have been concentrated in SNS Asset Management, a business unit of SNS Bank. Assets under management of SNS Beleggingsfondsen N.V. spread over 15 investment funds, increased by 29.4% from €1,700 million to €2,200 million. BLG Hypotheekbank N.V., Algemene Spaarbank voor Nederland ASN N.V. and CVB Bank N.V. are legal entities 100% owned by SNS Bank. These companies operate in niche markets or for specific distribution channels and use the centralized service centres of SNS Bank.

Mortgage loans

The mortgage market as a whole stabilised in 2005. The net mortgage production of SNS Bank amounted to €3.6 billion, resulting in a market share of 8.3% (2004: 9.1%), based on public available information of the Dutch central mortgage registry "Kadaster". The bank's total mortgage portfolio increased by 9.3% to €42.6 billion. These figures include securitised mortgages, which amount to €7.6 billion. SNS Bank is focused on product innovation and packaging mortgage and life insurance product to enhance cross-selling.

Retail banking

SNS Bank offers its customers a full range of banking products and services. The savings held for customers by the banking operation increased. SNS Bank successfully penetrates the market for SME's mainly by an efficient use of her service centers, internet, telephone and call centres.

Insurances

Through its distribution channels SNS Bank is active in selling life and non-life insurance products. Mortgage production is often accompanied with selling insurance products. The penetration in the SME market will increasingly be used to sell insurance products.

Supervision

SNS Bank is a credit institution with a full Netherlands banking license and is as such supervised by the Dutch Central Bank ("*De Nederlandsche Bank N.V.*") and by the Netherlands Authority for the Financial Markets ("*Stichting Autoriteit Financiële Markten*").

SNS RESIDENTIAL MORTGAGE BUSINESS

A. Mortgage Origination

SNS Bank originates mortgage loans through two separate channels:

- directly; and
- through independent agents, such as estate agents, financial advisers and insurance intermediaries.

The origination process is identical for both direct and agent-sourced business, although agents will typically receive assistance from the Seller in the provision of advice to clients. Emphasis is placed on direct client contact and an advisory based approach.

Loan-to-Foreclosure Value Ratio

The loan-to-foreclosure value ratio of a mortgage loan (the "**LtFV Ratio**") is determined by calculating the ratio of the principal amount of the loan to the estimated foreclosure value of the relevant property at a public sale (the "**Foreclosure Value**"). The Foreclosure Value is established by an independent qualified valuer or, in certain cases, on the basis of an assessment by the Netherlands tax authorities. The Foreclosure Value is typically in the region of 85 per cent. to 90 per cent. of the open market value of a property. Under SNS Bank's guidelines the maximum LtFV Ratio is 125 per cent.

Borrower Income Requirements

The maximum amount that can be borrowed depends on, *inter alia*, the Borrower's income. The Seller calculates the maximum proportion of a Borrower's income that may be applied to service principal and interest on the mortgage loan and all of the Borrower's other financial commitments. This maximum proportion can vary between 20 per cent. and 36 per cent. of the gross income of the relevant Borrower.

Other Conditions

The following general conditions also apply to all mortgage loans offered by the Seller:

- The borrowers must be at least 18 years old;
- Self employed and contractors are subject to additional income tests;
- Credit assessment of the borrower is required, including proof of income; and
- Insurance in respect of the property against risk of fire and other accidental damage for its full restitution value is required.

B. SNS Residential Mortgage Products

The Seller offers a full range of mortgage products with various interest rate and repayment mechanisms. The Issuer will only purchase Mortgage Receivables in respect of certain specified mortgage products. The characteristics of these products are described further below.

Legal Form

Details of all land and properties are recorded in public registers in the Netherlands. All Mortgage Loans are secured by a mortgage evidenced by a notarial mortgage deed recorded in these registers.

Although other legal forms of mortgage loans are available in the Netherlands, all Mortgage Receivables purchased by the Issuer are "Bank Mortgages". A Bank Mortgage is a mortgage that secures not only the loan granted to finance a property, long lease or apartment right, but also any other liabilities owed at any time by the relevant Borrower to the Seller. Accordingly, the Mortgaged Asset provides security for all debts up to a maximum amount as registered in the relevant public registry. For a further description of Bank Mortgages see *Risk Factors* above.

Mortgaged Assets

The mortgage rights securing the Mortgage Loans are vested on (i) a real property ("*onroerende zaak*"), (ii) an apartment right ("*appartementsrecht*") or (iii) a long lease ("*erfpacht*"). For over a century different municipalities and other public bodies in the Netherlands have used the long lease ("*erfpacht*") as a system to provide land without giving up the ownership of it. There are three types of long lease: temporary ("*tijdelijk*"), ongoing ("*voortdurend*") and perpetual ("*eeuwigdurend*"). A long lease is a right in rem ("*zakelijk recht*") which entitles the leaseholder ("*erfpachter*") to hold and use a real property ("*onroerende zaak*") owned by another party, usually a municipality. The long lease can be transferred by the leaseholder without permission from the landowner being required, unless the lease conditions provide otherwise and it passes to the heirs of the leaseholder in case of his death. Usually a remuneration ("*canon*") will be due by the leaseholder to the landowner for the long lease.

Repayment Mechanism

Savings Mortgage Loans ("*spaarhypotheek*")

A Savings Mortgage Loan consists of a Mortgage Loan entered into by the Seller and the relevant Borrower, which has the benefit of a Savings Insurance Policy taken out by the Borrower with the Savings Insurance Company. A Savings Insurance Policy is a combined risk and capital insurance policy. Under the Savings Mortgage Loan no principal is paid by the Borrower prior to maturity of the Mortgage Loan. Instead, the Borrower/insured pays on a monthly basis premium, which consists of a risk element and the Savings Premium. The Savings Premium is deposited by the Savings Insurance Company in a savings account held with SNS Bank. The Savings Premium is calculated in such a manner that, on an annuity basis, the proceeds of the Savings Insurance Policy are equal to the amount due by the Borrower to the Seller at maturity of the Savings Mortgage Loan. The proceeds of the Savings Insurance Policy will be used to redeem the Savings Mortgage Loan. The insurance proceeds are due either at the end of the Savings Insurance Policy or, if earlier, upon death of the Borrower.

Most of the Saving Mortgage Loans in the portfolio are documented as Savings Plus Mortgage Loans ("*Spaar Plus hypotheek*"), whereby the Savings Premium under the Savings Insurance Policy is either (i) deposited by the Savings Insurance Company in a savings account held with SNS Bank (the "**Savings Alternative**") or (ii), at the option of the Borrower, invested in certain investment funds offered by SNS Beleggingsfondsen N.V. (the "**Investment Alternative**"). Furthermore, the terms and conditions of the Savings Insurance Policy in connection with the Savings Plus Mortgage Loans provide that on each interest rate reset date the Borrower can (i) switch whole or part of the premia accumulated in the relevant Savings Insurance Policy with the Savings Alternative into the Investment Alternative (the "**Savings Switch**") and (ii) switch whole or part of the value of the investments of the Investment Alternative into the Savings Alternative.

Interest-only Mortgage Loans ("*aflossingsvrije hypotheek*")

Principal is repaid at final maturity of the mortgage. The Interest-only Mortgage Loans, to the extent compulsory under the relevant acceptance conditions, have the benefit of combined risk and capital life insurance policies taken out by Borrowers with an insurance company.

Linear Mortgage Loans ("*lineaire hypotheek*")

Scheduled (usually monthly) repayments of principal are fixed over the term of the mortgage.

Annuity Mortgage Loans ("*annuïteitenhypotheek*")

Scheduled (usually monthly) repayments of principal plus interest are fixed (provided that the interest rates do not change).

Investment-based Mortgage Loans ("*rendementhypotheek*")

The Borrower repays the principal in full at maturity with funds which have been accumulated through investments. There are three alternatives of this type of mortgage loan. The Mortgage Loans sold and assigned to the Issuer will be in the form of the "first alternative", whereby the Borrower does not pay principal prior to maturity of the Mortgage Loan, but undertakes to invest, on an instalment basis, an agreed amount in certain investment funds selected by the Borrower out of a range of investment funds of SNS Beleggingsfondsen N.V..

Combined Mortgage Loans ("combinatiehypotheken")

In order to tailor a Mortgage Loan to meet as closely as possible the specific fiscal and economic needs of a Borrower, it is common for a Mortgage Loan to be constructed from a combination of mortgage types.

The Seller also offers several other product types. The Issuer will not purchase receivables relating to such mortgage loans.

Interest Rate

The mortgage loans bear interest on the basis of any of the following alternatives:

- fixed rate, whereby the interest rates can be fixed for a specific period between 1 to 30 years;
- floating rate; or
- any other type of interest alternatives offered by the Seller, including:
 - Stable Interest ("*Stabiel Rente*"). In such case, the interest payable by the Borrower is determined on an annual basis, whereby the Borrower chooses a bandwidth between 1.0 per cent. and 3.5 per cent., (increased by steps of 0.5 per cent.) at the beginning of the Mortgage Loan. At any time, the Borrower is entitled to choose another bandwidth, subject to payment of certain administrative costs. Each bandwidth has its own SNS Stable Interest rate. Every year the interest rate in the contract ("*contractrente*") will be compared with the actual SNS Stable Interest rate ("*toetsrente*") for the applicable bandwidth. When the difference falls within the bandwidth, the interest rate for that year will be fixed at the interest rate equal to the interest rate in the contract of the Borrower ("*contractrente*"). When the difference falls outside the bandwidth, the interest rate for that year will be fixed at the interest rate equal to the interest rate in the contract of the Borrower ("*contractrente*") adjusted for the percentage which did fall outside the bandwidth.
 - Ideal Interest ("*Ideaal Rente*"). The interest rate is the average interest rate over five years. The interest payable by the Borrower is determined using a fraction in which the numerator is the sum of five interest percentages determined by SNS as the Ideal Interest and in which the denominator is five. In the first year, the numerator equals the Ideal Interest percentage for that year multiplied by five. In the second year the numerator equals the Ideal Interest percentage for year one multiplied by four plus the Ideal Interest percentage for year two. In the years thereafter, the most recent Ideal Interest percentage is included and the oldest Ideal Interest percentage is excluded from the numerator.
 - Ceiling Interest ("*Plafond Rente*"). The interest payable by the Borrower is a floating interest rate with a cap. The Borrower can choose a Ceiling Interest for five or ten years. In this period the borrower pays the floating Ceiling Interest rate with an agreed maximum ("*plafond*") interest rate.
 - Interest Dampner ("*Rente Dempner*"). The interest payable by the Borrower equals the interest as described under Stable Interest with the difference that the bandwidth is not fixed for 30 years but, at the option of the Borrower, for 5, 10 or 15 years.

Prepayments

Annual prepayments of not more than 20 per cent. of the original mortgage loan are allowed without a penalty being due. In addition, full prepayments can be made without penalty in specific situations:

- at the time of rate resetting;
- on sale or destruction of the property;
- if the Borrower dies.

In other cases, except for Ceiling Interest mortgage loans, penalty charges apply which are calculated as the net present value of the difference between the fixed rate being paid and the current mortgage rate, if lower, for the remaining term of the fixed period. For mortgage loans with a Ceiling Interest, the penalty is calculated by multiplying an agreed percentage with the remaining term of the Ceiling Interest and the loan balance.

C. Mortgage Administration

Collection Procedures

Once a mortgage offer has been accepted, the applicant, if not already a client of the Seller, is encouraged to open an account with the Seller, although this is not obligatory. If a client has given direct debit instructions, interest payments and repayments due will be debited directly from this account.

The loan administration system calculates the repayment schedules and reconciles collected funds with the appropriate account. A range of exception reports are automatically produced and are used by regional credit and administration departments to monitor the status of individual loans.

Arrears Management

Approximately 79 per cent. of the payments in respect of the Mortgage Loans in the portfolio are made by direct debit from an account with the Seller. Payments in arrears will be collected automatically on a daily basis. The remaining Borrowers make payments into a designated account of the Seller by direct debit from an account at another bank. All payments made to the Seller are made into the Seller Collection Account.

The Seller has installed arrears management procedures for the monitoring and collection of late payments. Specific action is taken when loan payments become overdue by more than a certain number of days:

From the 1st day: daily check to see if payments have been made.

After approximately 10 days: a reminder letter is generated automatically and sent to the Borrower.

After approximately 20 days: a second reminder letter is generated automatically and sent to the Borrower.

After approximately 45 days: the delinquency will be actively managed by the recovery department.

After approximately 65 days: if all negotiations with the Borrower fail and forced sale is necessary, foreclosure procedures will be started as follows:

- the Seller instructs the civil-law notary initially involved in the purchase of the property to sell the house within a given time period;
- the civil-law notary will approach the relevant Borrower in an attempt to reach an agreement;
- the civil-law notary will try a private sale;
- should this fail as well, then the civil-law notary will organise a forced sale by way of public auction.

Rate re-setting procedures

35 days prior to the reset date, the loan administration system automatically generates a letter to the Borrower advising that a rate re-setting is imminent and, in addition, listing the rate(s) that would apply. The Borrower does not have to choose the same fixed rate period as the previous one. If there is no response from the Borrower before the rate re-setting date, the rate is automatically reset for a one-year term.

DESCRIPTION OF MORTGAGE LOANS

The Mortgage Receivables to be sold and assigned to the Issuer on the Closing Date represent the rights (whether actual or contingent) of the Seller against any Borrower under or in connection with the Mortgage Loans (the "**Final Portfolio**") selected by agreement between the Seller and the Issuer.

The Mortgage Loans are loans secured by a mortgage, evidenced by notarial mortgage deeds ("*notariële akten van hypotheekstelling*") each entered into by the Seller and the relevant Borrowers. The Mortgage Loans are all in the form of Bank Mortgages. See *Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the Issuer* in Risk Factors above.

The Mortgage Loans in the Final Portfolio will be selected from a provisional pool of mortgage loans (the "**Provisional Pool**") that have been selected in accordance with the criteria set forth in the Mortgage Receivables Purchase Agreement and will be selected in accordance with such agreement on the Closing Date.

For a description of the representations and warranties given by the Seller reference is made to *Mortgage Receivables Purchase Agreement* below.

The numerical information set out below relates to the Provisional Pool which was selected on 1 September 2006. Therefore, the information set out below in relation to the Provisional Pool may not necessarily correspond to that of the Mortgage Receivables actually sold on the Closing Date. After the Closing Date, the portfolio will change from time to time as a result of repayment, prepayment, amendment and repurchase of Mortgage Receivables.

MORTGAGE RECEIVABLES PURCHASE AGREEMENT

Under the Mortgage Receivables Purchase Agreement, the Issuer will purchase the Mortgage Receivables and will, on the Closing Date, accept the assignment of the Mortgage Receivables and the Beneficiary Rights relating thereto from the Seller by means of a registered deed of assignment as a result of which legal title to the Mortgage Receivables and the Beneficiary Rights relating thereto is transferred to the Issuer. The assignment of the Mortgage Receivables and the Beneficiary Rights relating thereto from the Seller to the Issuer will not be notified to the Borrowers, except upon the occurrence of special events as further described hereunder ("**Assignment Notification Events**"). Until such notification the Borrowers will only be entitled to validly pay ("*bevrijdend betalen*") to the Seller. The Issuer will be entitled to all proceeds in respect of the Mortgage Receivables as of 1 October 2006 (the "**Cut-off Date**"). The Seller will pay to the Issuer on each Mortgage Payment Date all proceeds received during the immediately preceding Mortgage Calculation Period in respect of the Mortgage Receivables.

Purchase Price

The purchase price for the Mortgage Receivables shall consist of an initial purchase price which shall be payable on the Closing Date (the "**Initial Purchase Price**") and a deferred purchase price (the "**Deferred Purchase Price**"). The Initial Purchase Price in respect of the Mortgage Receivables purchased on the Closing Date will be euro 2,205,229,217.94, which is equal to the aggregate outstanding principal amount of the Mortgage Receivables at the Cut-off Date. The Deferred Purchase Price shall be equal to the sum of all instalments in respect of the Deferred Purchase Price and each instalment (each a "**Deferred Purchase Price Instalment**") will, with respect to a Payment Date, be equal to (A) prior to the Enforcement Date, the sum of (i) the positive difference, if any, between the Interest Available Amount and the sum of all amounts payable by the Issuer as set forth in the Interest Priority of Payments under (a) up to and including (s) and (ii) subject to the Notes having been repaid in full, the positive difference, if any, between the Redemption Available Amount and the sum of all amounts payable by the Issuer as set forth in the Principal Priority of Payments under (a) up to and including (d) on such date, or (B), after the Enforcement Date, the amount remaining after all payments as set forth in the Priority of Payments upon Enforcement under (a) up to and including (o) have been made (see *Credit Structure* above).

Repurchase

If at any time any of the representations and warranties relating to the Mortgage Loans and the Mortgage Receivables given by the Seller proves to have been untrue or incorrect in any material respect, the Seller shall within 14 days of receipt of written notice thereof from the Issuer remedy the matter giving rise thereto, or if such matter is not capable of being remedied or is not remedied within the said period of 14 days, the Seller shall repurchase and accept re-assignment of the relevant Mortgage Receivable at the immediately succeeding Mortgage Payment Date.

If the Seller agrees with a Borrower to make a Mortgage Loan Further Advance prior to the occurrence of an Assignment Notification Event and partial termination of the relevant mortgage right (see *Assignment Notification Events* below), the Seller shall repurchase and accept re-assignment of the relevant Mortgage Receivable at the immediately succeeding Mortgage Payment Date.

No repurchase and re-assignment of the Mortgage Receivable is required if the Seller agrees with a Borrower to grant (i) a new mortgage loan secured by a new mortgage right which is lower-ranking than the mortgage right which secures the Mortgage Receivable or (ii) a loan or credit to a Borrower other than a mortgage loan, including, without limitation, by means of a personal loan, a home improvement loan or a current account facility.

If the Seller agrees with a Borrower to amend the terms of the relevant Mortgage Loan, or part of such Mortgage Loan, as a result of which the relevant Mortgage Loan no longer meets the representations and warranties, including the Mortgage Loans Criteria, of the Mortgage Receivables Purchase Agreement (as set out above), the Seller shall also repurchase and accept re-assignment of such Mortgage Receivable on the immediately succeeding Mortgage Payment Date.

The purchase price for the Mortgage Receivable in such events will be equal to the outstanding principal amount of the Mortgage Receivable, together with due and overdue interest and reasonable costs, if any (including any costs incurred by the Issuer in effecting and completing such purchase and assignment), accrued up to (but excluding) the date of repurchase and re-assignment of the Mortgage Receivable except if:

- (i) it concerns a Mortgage Loan Amendment, and
- (ii) such Mortgage Receivable is either in arrears for a period exceeding 90 days or in respect of such Mortgage Receivable an instruction has been given to the civil-law notary to publicly sell the Mortgaged Assets,

the purchase price shall be at least the lesser of (i) the sum of an amount equal to the indexed foreclosure value of the Mortgaged Assets, and (ii) the sum of the outstanding principal amount of the Mortgage Receivable, together with accrued interest due but unpaid, if any, and any other amounts due under the Mortgage Receivable.

Other than in the events set out above, the Seller will not be obliged to repurchase any Mortgage Receivables from the Issuer.

Clean-Up Call Option

On each Payment Date the Seller has the option (but not the obligation) to repurchase the Mortgage Receivables if on the Calculation Date immediately preceding such Payment Date the aggregate outstanding principal amount of the Mortgage Receivables is not more than 10 per cent. of the aggregate outstanding principal amount of the Mortgage Receivables on the Closing Date (the "**Clean-Up Call Option**").

The Issuer has undertaken in the Mortgage Receivables Purchase Agreement to sell and assign the Mortgage Receivables to the Seller, or any third party appointed by the Seller at its sole discretion, in case the Seller exercises the Clean-Up Call Option. See also *Sale of Mortgage Receivables* above.

Assignment Notification Events

The Mortgage Receivables Purchase Agreement provides that if, *inter alia*:

- (a) a default is made by the Seller in the payment on the due date of any amount due and payable by it under the Mortgage Receivables Purchase Agreement or under any Relevant Document to which it is a party and such failure is not remedied within 10 business days after notice thereof has been given by the Issuer or the Security Trustee to the Seller; or
- (b) the Seller fails duly to perform or comply with any of its obligations under the Mortgage Receivables Purchase Agreement or under any Relevant Document to which it is a party and, if such failure is capable of being remedied, such failure is not remedied within 10 business days after notice thereof has been given by the Issuer or the Security Trustee to the Seller; or
- (c) the Seller takes any corporate action or other steps are taken or legal proceedings are started or threatened against it for its dissolution ("*ontbinding*") and liquidation ("*vereffening*") or legal demerger ("*juridische splitsing*") involving the Seller or its assets are placed under administration ("*onder bewind gesteld*"); or
- (d) the Seller has taken any corporate action or any steps have been taken or legal proceedings have been instituted or threatened against it for its entering into emergency regulations ("*noodregeling*") as referred to in Chapter X of the Netherlands Act on the Supervision of the Credit System 1992 ("*Wet toezicht kredietwezen 1992*", or "*Wtk 1992*") or for bankruptcy or for any analogous insolvency proceedings under any applicable law or for the appointment of a receiver or a similar officer of it or of any or all of its assets; or
- (e) the credit rating of the Seller's long term unsecured, unsubordinated and unguaranteed debt obligations falls below A- by S&P or such rating is withdrawn and/or falls below Baa1 by Moody's or such rating is withdrawn and/or falls below A- by Fitch or such rating is withdrawn,

(each an "**Assignment Notification Event**") then the Seller shall, unless the Security Trustee, after having received confirmation from S&P, Moody's and Fitch that no downgrading of the Notes will occur as a result of not giving notice as described below, instructs it otherwise, forthwith

- (x) notify the Borrowers and the Insurance Companies, respectively, and any other relevant parties indicated by the Issuer and/or the Security Trustee of (i) in respect of the Mortgage Loans originated after the end of 2005 the termination of the Mortgages and Borrower Pledges securing the Mortgage Receivables in as far as they secure other debts than the Mortgage Receivables and (ii) the assignment of the Mortgage Receivables and the Beneficiary Rights relating thereto to the Issuer or, at its option, the Issuer shall be entitled to make such notifications itself;
- (y) release the Borrower Insurance Pledge in respect of the Insurance Policies and undertake its reasonable efforts to the effect that a first ranking right of pledge is created on the right of the Borrowers/insured under the Insurance Policies in favour of (i) the Issuer subject to the dissolving condition of the occurrence of a Security Trustee Pledge Notification Event relating to the Issuer and (ii) the Security Trustee subject to the condition precedent of the occurrence of a Security Trustee Pledge Notification Event relating to the Issuer; and
- (z) with regard to the Investment based Mortgage Loans, release the right of pledge in favour of the Seller on the relevant securities, if any, and undertake to use its best efforts to create a first ranking pledge on the relevant securities in favour of (x) the Issuer subject to the dissolving condition of the occurrence of a Security Trustee Pledge Notification Event relating to the Issuer and (y) the Security Trustee subject to the condition precedent of the occurrence of a Security Trustee Pledge Notification Event relating to the Issuer.

In addition, pursuant to the Beneficiary Waiver Agreement the Seller, subject to the condition precedent of the occurrence of an Assignment Notification Event, waives its right as beneficiary under the Savings Insurance Policies and appoints as first beneficiary (x) the Issuer subject to the dissolving condition of the occurrence of an Security Trustee Pledge Notification Event and (y) the Security Trustee under the condition precedent of the occurrence of an Security Trustee Pledge Notification

Event.

Furthermore, pursuant to the Beneficiary Waiver Agreement, upon the occurrence of a Security Trustee Pledge Notification Event and to the extent that the waiver and appointment referred to above are not effective in respect of the Savings Insurance Policies and furthermore in respect of the Life Insurance Policies, the Seller and in respect of Savings Insurance Policies, the Savings Insurance Company shall (a) use their best efforts to terminate the appointment of the Seller as beneficiary under the Insurance Policies and to appoint as first beneficiary under the Insurance Policies (x) the Issuer under the dissolving condition of the occurrence of a Security Trustee Pledge Notification Event and (y) the Security Trustee under the condition precedent of the occurrence of a Security Trustee Pledge Notification Event and (b) with respect to Insurance Policies where a Borrower Insurance Proceeds Instruction has been given, use their best efforts to withdraw the Borrower Insurance Proceeds Instruction in favour of the Seller and to issue such instruction in favour of (x) the Issuer under the dissolving condition of the occurrence of a Security Trustee Pledge Notification Event and (y) the Security Trustee under the condition precedent of the occurrence of a Security Trustee Pledge Notification Event.

Consent of the Savings Insurance Company

The Savings Insurance Company has, pursuant to each mortgage deed relating to a Savings Mortgage Loan, granted its consent ("*goedkeuring*") to (i) the sale and assignment of the Savings Mortgage Receivables by the Seller to the Issuer in accordance with the Mortgage Receivables Purchase Agreement and (ii) the pledge thereof by the Issuer to the Security Trustee in accordance with the Security Trustee Receivables Pledge Agreement.

Set-off by Borrowers

The Mortgage Receivables Purchase Agreement provides that if a Borrower sets off amounts due to it by the Seller against the relevant Mortgage Receivable and, as a consequence thereof, the Issuer does not receive the amount which it is entitled to receive in respect of such Mortgage Receivable, the Seller will pay to the Issuer an amount equal to the difference between the amount which the Issuer would have received in respect of the relevant Mortgage Receivable if no set-off had taken place and the amount actually received by the Issuer in respect of such Mortgage Receivable.

SUB-PARTICIPATION AGREEMENT

Under the Sub-Participation Agreement the Issuer will grant to the Savings Insurance Company a sub-participation in the Savings Mortgage Receivables with the Savings Alternative.

Savings Premium

The conditions applicable to the Savings Mortgage Loans to which a Savings Insurance Policy with the Savings Alternative is connected, stipulate that the Savings Premia paid by the Borrowers/insured will be deposited by the Savings Insurance Company on a savings account held with the Seller.

The Seller has agreed with the Savings Insurance Company that it shall on-lend to the Savings Insurance Company amounts equal to the Savings Premia deposited on the savings account in order to facilitate the Savings Insurance Company in meeting its obligations under the Sub-Participation Agreement. However, the obligations of the Savings Insurance Company under the Sub-Participation Agreement are not conditional upon the receipt of such amounts from the Seller.

Participation

In the Sub-Participation Agreement the Savings Insurance Company will undertake to pay to the Issuer:

- (i) at (a) in respect of Savings Mortgage Receivables the Closing Date or (b) in respect of a switch from any type of Mortgage Loan into a Savings Mortgage Loan to which a Savings Insurance Policy with the Savings Alternative is connected, the next succeeding Mortgage Payment Date, an amount equal to the sum of the Savings Premia received by the Savings Insurance Company with accrued interest up to the first day of the month in which the Closing Date falls or, as the case may be, the relevant Mortgage Payment Date (the "**Initial Participation**") in relation to each of the Savings Mortgage Receivables with the Savings Alternative;
- (ii) on each Mortgage Payment Date an amount equal to the amount received by the Savings Insurance Company as Savings Premium during the Mortgage Calculation Period then ended in respect of the relevant Savings Insurance Policies with the Savings Alternative, provided that in respect of each relevant Savings Mortgage Receivable with the Savings Alternative no amounts will be paid to the extent that, as a result, thereof the Participation in such relevant Savings Mortgage Receivable would exceed the outstanding principal amount of the relevant Savings Mortgage Receivable with the Savings Alternative.

As a consequence of such payments the Savings Insurance Company will acquire a participation (the "**Participation**") in each of the relevant Savings Mortgage Receivables with the Savings Alternative, which is equal to the Initial Participation in respect of the relevant Savings Mortgage Receivables with the Savings Alternative increased during each Mortgage Calculation Period on the basis of the following formula (the "**Participation Increase**"):

$(P/H \times R) + S$, whereby

P = the Participation on the first day of the relevant Mortgage Calculation Period in the Savings Mortgage Receivable with the Savings Alternative;

S = the amount received by the Issuer from the Savings Insurance Company in such Mortgage Calculation Period in respect of the relevant Savings Mortgage Receivable with the Savings Alternative pursuant to the Sub-Participation Agreement;

H = the principal sum outstanding on the Savings Mortgage Receivable with the Savings Alternative on the first day of the relevant Mortgage Calculation Period;

R = the amount of interest, due by the Borrower on the Savings Mortgage Receivable with the Savings Alternative and actually received by the Issuer in such Mortgage Calculation Period.

In consideration for the undertakings of the Savings Insurance Company described above, the Issuer will undertake to pay to the Savings Insurance Company on each Mortgage Payment Date an amount equal to the Participation in each of the Savings Mortgage Receivables with the Savings Alternative in respect of which amounts have been received during the relevant Mortgage Calculation Period or, in

the case of the first Mortgage Payment Date, during the period which commences on the Cut-off Date and ends on the last day of the Mortgage Calculation Period immediately preceding such first Mortgage Payment Date (i) by means of repayment and prepayment under the relevant Savings Mortgage Receivables with the Savings Alternative, but excluding any prepayment penalties and interest penalties, if any, and, furthermore, excluding amounts paid as partial prepayments on the Savings Mortgage Receivable with the Savings Alternative, (ii) in connection with a repurchase of Savings Mortgage Receivables with the Savings Alternative pursuant to the Mortgage Receivables Purchase Agreement to the extent such amounts relate to principal, (iii) in connection with a sale of Savings Mortgage Receivables with the Savings Alternative pursuant to the Trust Deed and to the extent such amounts relate to principal and (iv) as Net Proceeds on any Savings Mortgage Receivables with the Savings Alternative to the extent such amounts relate to principal (the "**Participation Redemption Available Amount**").

Reduction of Participation

If a Borrower invokes a defence, including but not limited to a right of set-off or counterclaim against any person in respect of the relevant Savings Mortgage Receivables with the Savings Alternative if, for whatever reason, the Savings Insurance Company does not pay the insurance proceeds when due and payable, whether in full or in part, under the relevant Savings Insurance Policy with the Savings Alternative and, as a consequence thereof, the Issuer will not have received any amount outstanding prior to such event in respect of such Savings Mortgage Receivable with the Savings Alternative, the Participation of the Savings Insurance Company in respect of such Savings Mortgage Receivable with the Savings Alternative, will be reduced by an amount equal to the amount which the Issuer has failed to so receive and the calculation of the Participation Redemption Available Amount shall be adjusted accordingly.

Enforcement Notice

If an Enforcement Notice is given by the Security Trustee to the Issuer, then and at any time thereafter the Security Trustee on behalf of the Savings Insurance Company may, and if so directed by the Savings Insurance Company shall, by notice to the Issuer:

- (i) declare that the obligations of the Savings Insurance Company under the Sub-Participation Agreement are terminated;
- (ii) declare the Participation to be immediately due and payable, whereupon it shall become so due and payable, but such payment obligations shall be limited to the Participation Redemption Available Amount received or collected by the Issuer or, in case of enforcement, the Security Trustee under the Savings Mortgage Receivables with the Savings Alternative.

Termination

If one or more of the Savings Mortgage Receivables with the Savings Alternative are (i) repurchased by the Seller from the Issuer pursuant to the Mortgage Receivables Purchase Agreement or (ii) sold by the Issuer to a third party pursuant to the Trust Deed, the Participation in such Savings Mortgage Receivables with the Savings Alternative will terminate and the Participation Redemption Available Amount in respect of the Savings Mortgage Receivables with the Savings Alternative will be paid by the Issuer to the Savings Insurance Company. If so requested by the Savings Insurance Company, the Issuer will use its best efforts to ensure that the acquiror of the Savings Mortgage Receivables with the Savings Alternative will enter into a Sub-Participation Agreement with the Savings Insurance Company in a form similar to the Sub-Participation Agreement. Furthermore, the Participation envisaged in the Sub-Participation Agreement shall terminate if at the close of business of any Mortgage Payment Date the Savings Insurance Company has received the Participation in respect of the relevant Savings Mortgage Receivable with the Savings Alternative.

ADMINISTRATION AGREEMENT

Services

In the Administration Agreement the Administrator will agree (i) to provide administration and management services to the Issuer on a day-to-day basis in relation to the Mortgage Loans and the Mortgage Receivables, including, without limitation, the collection and recording of payments of principal, interest and other amounts in respect of the Mortgage Receivables and the implementation of arrears procedures including the enforcement of mortgage rights (see further *Mortgage Administration* in *SNS Residential Mortgage Business* above); (ii) to communicate with the Borrowers; (iii) to investigate payment delinquencies; (iv) to provide certain administration, calculation and cash management services to the Issuer, including (a) the direction of amounts received by the Seller to the Floating Rate GIC Account and the production of monthly reports in relation thereto, (b) drawings (if any) to be made by the Issuer under the Cash Advance Facility and from the Reserve Fund, (c) all payments to be made by the Issuer under the Swap Agreement, (d) all payments to be made by the Issuer under the Notes in accordance with the Paying Agency Agreement and the Conditions of the Notes, (e) the maintaining of all required ledgers in connection with the above and (f) all calculations to be made pursuant to the Conditions under the Notes; and (v) to perform any other task incidental to the above.

The Administrator will be obliged to administer the Mortgage Loans and the Mortgage Receivables with the same level of skill, care and diligence as mortgage loans in its own portfolio.

Termination

The Issuer will apply this amount towards payment of part of the Initial Purchase Price for the Mortgage Receivables purchased on the Closing Date.

DESCRIPTION OF SECURITY

In the Parallel Debt Agreement the Issuer will irrevocably and unconditionally undertake to pay to the Security Trustee (the "**Parallel Debt**") an amount equal to the aggregate amount due ("*verschuldigd*") by the Issuer (i) as fees or other remuneration to the Directors under the Management Agreements, (ii) as fees and expenses to the Administrator under the Administration Agreement, (iii) as fees and expenses to the Paying Agent and the Reference Agent under the Paying Agency Agreement, (iv) to the Cash Advance Facility Provider under the Cash Advance Facility Agreement, (v) to the Swap Counterparty under the Swap Agreement, (vi) to the Noteholders under the Notes, (vii) to the Seller under the Mortgage Receivables Purchase Agreement and (viii) to the Savings Insurance Company under the Sub-Participation Agreement (the parties referred to in items (i) through (viii) together the "**Secured Parties**"). The Parallel Debt constitutes a separate and independent obligation of the Issuer and constitutes the Security Trustee's own separate and independent claim ("*eigen en zelfstandige vordering*") to receive payment of the Parallel Debt from the Issuer. Upon receipt by the Security Trustee of any amount in payment of the Parallel Debt, the payment obligations of the Issuer to the Secured Parties shall be reduced by an amount equal to the amount so received.

To the extent that the Security Trustee irrevocably and unconditionally receives any amount in payment of the Parallel Debt, the Security Trustee shall distribute such amount among the Secured Parties in accordance with the Priority of Payments upon Enforcement, save for amounts due to the Savings Insurance Company in connection with the Participations. The amounts due to the Secured Parties, other than the Savings Insurance Company, will, broadly, be equal to amounts recovered ("*verhaald*") by the Security Trustee on (i) the Mortgage Receivables (other than Savings Mortgage Receivables with the Savings Alternative) and other assets pledged to the Security Trustee under the Security Trustee Receivables Pledge Agreement and the Security Trustee Asset Pledge Agreement and (ii) on each of the Savings Mortgage Receivables with the Savings Alternative to the extent the amount exceeds the Participation in the relevant Savings Mortgage Receivables with the Savings Alternative.

The amounts due to the Savings Insurance Company will be equal to the Participation in each of the Savings Mortgage Receivables with the Savings Alternative or if the amount recovered is less than the Participation in such Savings Mortgage Receivable with the Savings Alternative the amount equal to the amount actually recovered.

The Issuer will vest a right of pledge (the "**Security Trustee Receivables Pledge Agreement** ") in favour of the Security Trustee on the Mortgage Receivables and the Beneficiary Rights on the Closing Date, which will secure the payment obligations of the Issuer to the Security Trustee under the Parallel Debt Agreement and any other Relevant Documents. The pledge on the Mortgage Receivables will not be notified to the Borrowers and the Insurance Companies, respectively, except in the event that certain notification events occur relating to the Issuer, including the issuing of an Enforcement Notice by the Security Trustee (the "**Security Trustee Pledge Notification Events**"). Prior to notification of the pledge to the Borrowers or the Insurance Companies, the pledge will be a "silent" right of pledge ("*stil pandrecht*") within the meaning of section 3:239 of the Netherlands Civil Code.

In addition, a right of pledge (the "**Security Trustee Assets Pledge Agreement** ", and together with the Security Trustee Receivables Pledge Agreement, the "**Pledge Agreements**") will be vested by the Issuer in favour of the Security Trustee on the Closing Date over all rights of the Issuer under or in connection with (i) the Mortgage Receivables Purchase Agreement, (ii) the Administration Agreement, (iii) the Floating Rate GIC, (iv) the Cash Advance Facility Agreement, (v) the Swap Agreement and (vi) the Sub-Participation Agreement. This right of pledge will be notified to the relevant obligors and will, therefore, be a disclosed right of pledge ("*openbaar pandrecht*").

The rights of pledge created in the Pledge Agreements secure any and all liabilities of the Issuer to the Security Trustee resulting from or in connection with the Parallel Debt Agreement and any other Relevant Documents.

The security rights described above shall serve as security for the benefit of the Secured Parties, including each of the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders, the Junior Class D Noteholders and the Subordinated Class E Noteholders, but,

inter alia, amounts owing to the Mezzanine Class B Noteholders will rank in priority of payment after amounts owing to Senior Class A Noteholders and amounts owing to the Mezzanine Class C Noteholders will rank in priority of payment after amounts owing to the Senior Class A Noteholders and the Mezzanine Class B Noteholders and amounts owing to the Junior Class D Noteholders will rank in priority of payment after amounts owing to the Senior Class A Noteholders, the Mezzanine Class B Noteholders and the Mezzanine Class C Noteholders and amounts owing to the Subordinated Class E Noteholders will rank in priority of payment after amounts owing to the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders and the Junior Class D Noteholders (see *Credit Structure* above).

 - (A) request the principal Euro-zone office of each of four major banks in the Euro-zone interbank market (the "**Euribor Reference Banks**") to provide a quotation for the rate at which three months euro deposits are offered by it in the Euro-zone interbank market at approximately 11.00 am (Brussels time) on the relevant Euribor Interest Determination Date to prime banks in the Euro-zone interbank market in an amount that is representative for a single transaction at that time; and

- (B) if at least two quotations are provided, determine the arithmetic mean (rounded, if necessary, to the fifth decimal place with 0.000005 being rounded upwards) of such quotations as provided; and
- (iii) if fewer than two such quotations are provided as requested, the Reference Agent will determine the arithmetic mean (rounded, if necessary to the fifth decimal place with 0.000005 being rounded upwards) of the rates quoted by major banks, of which there shall be at least two in number, in the Euro-zone, selected by the Reference Agent, at approximately 11.00 am (Brussels time) on the relevant Euribor Interest Determination Date for three months deposits to leading Euro-zone banks in an amount that is representative for a single transaction in that market at that time,

and Euribor for such Interest Period shall be the rate per annum equal to Euribor for three months euro deposits as determined in accordance with this paragraph (e), provided that if the Reference Agent is unable to determine Euribor in accordance with the above provisions in relation to any Interest Period, Euribor applicable to the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes during such Interest Period will be Euribor last determined in relation thereto.

- (f) *Determination of the Rates of Interest and Calculation of Interest Amounts*
The Reference Agent will, as soon as practicable after 11.00 am (Brussels time) on each Euribor Interest Determination Date, determine the Rates of Interest referred to in paragraph (c), (d) and (e) above for each Class of Notes and calculate the amount of interest payable on each of the Notes for the following Interest Period (the "**Interest Amount**") by applying, as provided in Condition 4(a), the relevant Rates of Interest to the Principal Amount Outstanding of each Class of Notes respectively. The determination of the relevant Rates of Interest and each Interest Amount by the Reference Agent shall (in the absence of manifest error) be final and binding on all parties.
- (g) *Notification of Rates of Interest and Interest Amounts*
The Reference Agent will cause the relevant Rates of Interest and the relevant Interest Amount and the Payment Date applicable to each relevant Class of the Notes to be notified to the Issuer, the Security Trustee, the Paying Agent, the Administrator, Euronext Amsterdam and to the holders of such Class of Notes by an advertisement in the English language in the Euronext Daily Official List ("*Officiële Prijscourant*") of Euronext Amsterdam for as long as the Notes are listed on Euronext Amsterdam, as soon as possible after the determination. The Rates of Interest, Interest Amount and Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period.
- (h) *Determination or Calculation by Security Trustee*
If the Reference Agent at any time for any reason does not determine the relevant Rates of Interest or fails to calculate the relevant Interest Amounts in accordance with Condition 4(f) above, the Security Trustee shall determine the relevant Rate of Interest, at such rate as, in its absolute discretion (having such regard as it shall think fit to the procedure described in Condition 4(f) above), it shall deem fair and reasonable under the circumstances, or, as the case may be, the Security Trustee shall calculate the Interest Amounts in accordance with Condition 4(f) above, and each such determination or calculation shall (in the absence of manifest error) be final and binding on all parties.
- (i) *Reference Banks and Reference Agent*
The Issuer will procure that, as long as any of Notes remains outstanding, there will at all times be four Reference Banks and a Reference Agent. The Issuer has, subject to prior written consent of the Security Trustee, the right to terminate the appointment of the Reference Agent or of any Reference Bank by giving at least 90 days' notice in writing to that effect. Notice of any such termination will be given to the holders of the Notes in accordance with Condition 13. If any person shall be unable or unwilling to continue to act as a Reference Bank, or the Reference Agent (as the case may be) or if the appointment of any Reference Bank or the Reference Agent shall be terminated, the Issuer will, with the prior written consent of the

Security Trustee, appoint a successor Reference Bank or Reference Agent (as the case may be) to act in its place, provided that neither the resignation nor removal of the Reference Agent shall take effect until a successor approved in writing by the Security Trustee has been appointed.

5. Payment

- (a) Payment of principal and interest in respect of Notes will be made upon presentation of the Note and against surrender of the relevant Coupon appertaining thereto at any specified office of the Paying Agent in cash or by transfer to an euro account, as the holder may specify. All such payments are subject to any fiscal or other laws and regulations applicable in the place of payment.
- (b) At the Final Maturity Date, or such earlier date the Notes become due and payable, the Notes should be presented for payment together with all unmatured Coupons appertaining thereto, failing which the full amount of any such missing unmatured Coupons (or, in the case of payment not being made in full, that proportion of the full amount of such missing unmatured Coupons which the sum of principal so paid bears to the total amount of principal due) will be deducted from the sum due for payment. Each amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon at any time before the expiry of five years following the due date for payment of such principal (whether or not such Coupons would have become void pursuant to Condition 8).
- (c) If the relevant Payment Date is not a day on which banks are open for business in the place of presentation of the relevant Note or Coupon, the holder thereof shall not be entitled to payment until the next following day on which banks are open for business in the place of presentation, or to any interest or other payment in respect of such delay, provided that in the case of payment by transfer to an euro account as referred to above, the Paying Agent shall not be obliged to credit such account until the day on which banks in the place of such account are open for business immediately following the day on which banks are open for business in the Netherlands.
- (d) The Issuer reserves the right at any time to vary or terminate the appointment of the Paying Agent and to appoint additional or other paying agents provided that no paying agent located in the United States of America will be appointed and that the Issuer will at all times maintain a paying agent having a specified office in a European city which, for as long as the Notes are listed on Eurolist by Euronext Amsterdam, shall be located in Amsterdam, the Netherlands. No Class of Notes may be redeemed under such circumstances unless the other Classes of Notes (or such of them as are then outstanding) are also redeemed in full at the same time.

The Issuer shall notify the exercise of such option by giving not more than 60 nor less than 30 days notice to the Noteholders and the Security Trustee prior to the relevant Payment Date.

(g) *Mandatory Redemption of Subordinated Class E Notes*

Provided that no Enforcement Notice has been served in accordance with Condition 10, the Issuer shall be obliged to apply the Class E Redemption Available Amount to redeem (or partially redeem) on a *pro rata* basis the Subordinated Class E Notes on the Payment Date falling in December 2009 and each Payment Date thereafter, until fully redeemed. The principal amount so redeemable in respect of each Note (the "**Further Redemption Amount**"), on the relevant Payment Date shall be the Further Redemption Available Amount on the Calculation Date relating to the Payment Date divided by the number of Notes of the relevant Class subject to such redemption (rounded down to the nearest euro), provided always that the amount so

redeemable, taking into account any Principal Redemption Amount due in accordance with Condition 6(b), may never exceed the Principal Amount Outstanding of the relevant Note of the relevant Class. - (a) the Issuer is or will be obliged to make any withholding or deduction for, or on account of, any taxes, duties, or charges of whatsoever nature from payments in respect of any Class of Notes as a result of any change in, or amendment to, the application of the laws or regulations of the Netherlands (including any guidelines issued by the tax authorities) or any other jurisdiction or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction), which becomes effective on or after the Closing Date and such obligation cannot be avoided by the Issuer taking reasonable measures available to it; and
- (b) the Issuer will have sufficient funds available on the Calculation Date immediately preceding such Payment Date to discharge all amounts of principal and interest due in respect of the Notes and any amounts required to be paid in priority or *pari passu* with each Class of Notes in accordance with the Trust Deed.

No Class of Notes may be redeemed under such circumstances unless all Classes of Notes (or such of them as are then outstanding) are also redeemed in full at the same time.

7. Taxation

All payments of, or in respect of, principal of and interest on the Notes will be made without withholding of, or deduction for, or on account of any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments or charges are required by law. In that event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not pay any additional amounts to such Noteholders. In particular, but without limitation, no additional amounts shall be payable in respect of any Note or Coupon presented for payment where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to the European Union Directive on the taxation of savings that was adopted on 3 June 2003 or any law implementing or complying with, or introduced in order to conform to, such Directive.

8. Prescription

Claims against the Issuer for payment in respect of the Notes and Coupons shall become prescribed and become void unless made within five years from the date on which such payment first becomes due.

(a) *Interest*

Interest on the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes shall be payable in accordance with the provisions of Conditions 4 and 5, subject to the terms of this Condition.

In the event that on any Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Mezzanine Class B Notes on the next Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Payment Date to the holders of the Mezzanine Class B Notes. In the event of a shortfall, the Issuer shall credit the Mezzanine Class B Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount

by which the aggregate amount of interest paid on the Mezzanine Class B Notes, on any Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Mezzanine Class B Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Mezzanine Class B Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Mezzanine Class B Note on the next succeeding Payment Date.

In the event that on any Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Mezzanine Class C Notes on the next Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Payment Date to the holders of the Mezzanine Class C Notes. In the event of a shortfall, the Issuer shall credit the Mezzanine Class C Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount by which the aggregate amount of interest paid on the Mezzanine Class C Notes, on any Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Mezzanine Class C Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Mezzanine Class C Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Mezzanine Class C Note on the next succeeding Payment Date.

In the event that on any Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Junior Class D Notes on the next Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Payment Date to the holders of the Junior Class D Notes. In the event of a shortfall, the Issuer shall credit the Junior Class D Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount by which the aggregate amount of interest paid on the Junior Class D Notes, on any Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Junior Class D Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Junior Class D Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Junior Class D Note on the next succeeding Payment Date.

In the event that on any Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Subordinated Class E Notes on the next Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Payment Date to the holders of the Subordinated Class E Notes. In the event of a shortfall, the Issuer shall credit the Subordinated Class E Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount by which the aggregate amount of interest paid on the Subordinated Class E Notes, on any Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Subordinated Class E Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Subordinated Class E Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Subordinated Class E Note on the next succeeding Payment Date.

(b) *Principal*

Until the date on which the Principal Amount Outstanding of all Senior Class A Notes is reduced to zero, the Mezzanine Class B Noteholders will not be entitled to any repayment of principal in respect of the Mezzanine Class B Notes. If, on any Payment Date, there is a balance on the Class B Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions, the principal amount payable on redemption of each Mezzanine Class B Note on such Payment Date shall not exceed its Principal Amount Outstanding less the Mezzanine Class B Principal Shortfall on such Payment Date. The "**Mezzanine Class B Principal Shortfall**" shall mean an amount equal to the quotient of the balance on the Class B Principal Deficiency Ledger and the number of Mezzanine Class B Notes outstanding on such Payment Date. The Mezzanine Class B Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Mezzanine Class B Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Floating Rate GIC Account.

Until the date on which the Principal Amount Outstanding of all Senior Class A Notes and Mezzanine Class B Notes are reduced to zero, the Mezzanine Class C Noteholders will not be entitled to any repayment of principal in respect of the Mezzanine Class C Notes. If, on any Payment Date, there is a balance on the Class C Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Mezzanine Class C Note on such Payment Date shall not exceed its Principal Amount Outstanding less the Mezzanine Class C Principal Shortfall on such Payment Date. The "**Mezzanine Class C Principal Shortfall**" shall mean an amount equal to the quotient of the balance on the Class C Principal Deficiency Ledger and the number of Mezzanine Class C Notes outstanding on such Payment Date. The Mezzanine Class C Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Mezzanine Class C Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Floating Rate GIC Account.

Until the date on which the Principal Amount Outstanding of all Senior Class A Notes, Mezzanine Class B Notes and Mezzanine Class C Notes are reduced to zero, the Junior Class D Noteholders will not be entitled to any repayment of principal in respect of the Junior Class D Notes. If, on any Payment Date, there is a balance on the Class D Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Junior Class D Note on such Payment Date shall not exceed its Principal Amount Outstanding less the Junior Class D Principal Shortfall on such Payment Date. The "**Junior Class D Principal Shortfall**" shall mean an amount equal to the quotient of the balance on the Class D Principal Deficiency Ledger and the number of Junior Class D Notes outstanding on such Payment Date. The Junior Class D Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Junior Class D Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Floating Rate GIC Account.

The Subordinated Class E Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Subordinated Class E Notes, after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Floating Rate GIC Account.

(c) *General*

In the event that the Security in respect of the Notes and the Coupons appertaining thereto has been fully enforced and the proceeds of such enforcement, after payment of all other claims ranking under the Trust Deed in priority to a Class of Notes are insufficient to pay in full all principal and interest and other amounts whatsoever due in respect of such Class of Notes, the Noteholders of the relevant Class of Notes shall have no further claim against the Issuer or the Security Trustee in respect of any such unpaid amounts.

10. Events of Default

The Security Trustee at its discretion may, and if so directed by an Extraordinary Resolution of the Senior Class A Noteholders, or if no Senior Class A Notes are outstanding, by an Extraordinary Resolution of the Mezzanine Class B Noteholders, or if no Senior Class A Notes and Mezzanine Class B Notes are outstanding, by an Extraordinary Resolution of the Mezzanine Class C Noteholders, or if no Senior Class A Notes, Mezzanine Class B Notes and Mezzanine Class C Notes are outstanding, by an Extraordinary Resolution of the Junior Class D Noteholders, or if no Senior Class A Notes, Mezzanine Class B Notes, Mezzanine Class C Notes and Junior Class D Notes are outstanding, by an Extraordinary Resolution of the Subordinated Class E Noteholders (subject, in each case, to being indemnified to its satisfaction) (in each case, the "**Relevant Class**") shall (but in the case of the occurrence of any of the events mentioned in (b) below, only if the Security Trustee shall have certified in writing to the Issuer that such an event is, in its opinion, materially prejudicial to the Noteholders of the Relevant Class) give notice (an "**Enforcement Notice**") to the Issuer that the Notes are, and each Note shall become, immediately due and payable at their or its Principal Amount Outstanding, together with accrued interest, if any of the following shall occur:

- (a) default is made for a period of seven (7) days in the payment of the principal of, or default is made for a period of 14 days in the payment of interest on, the Notes of the Relevant Class when and as the same ought to be paid in accordance with these Conditions; or
- (b) the Issuer fails to perform any of its other obligations binding on it under the Notes of the Relevant Class, the Trust Deed, the Paying Agency Agreement or the Pledge Agreements and, except where such failure, in the reasonable opinion of the Security Trustee, is incapable of remedy, such default continues for a period of 21 days after written notice by the Security Trustee to the Issuer requiring the same to be remedied; or

- (e) the Issuer makes an assignment for the benefit of, or enters into any general assignment ("*akkoord*") with, its creditors; or
- (f) the Issuer files a petition for a suspension of payments ("*surseance van betaling*") or for bankruptcy ("*faillissement*") or is declared bankrupt,

provided that, if more than one Class of Notes is outstanding, no Enforcement Notice may or shall be given by the Security Trustee to the Issuer in respect of any Class of Notes ranking junior to the Most Senior Class of Notes irrespective of whether an Extraordinary Resolution is passed by the holders of such Class or Classes of Notes ranking junior to the Most Senior Class of Notes, unless an Enforcement Notice in respect of the Most Senior Class of Notes has been given by the Security Trustee. In exercising its discretion as to whether or not to give an Enforcement Notice to the Issuer in respect of the Most Senior Class of Notes, the Security Trustee shall not be required to have regard to the interests of the holders of any Class of Notes ranking junior to the Most Senior Class of Notes.

11. Enforcement

- (a) At any time after an Enforcement Notice has been given and the Notes of any Class become due and payable, the Security Trustee may, at its discretion and without further notice, take such steps and/or institute such proceedings as it may think fit to enforce the terms of the Parallel Debt Agreement, including the making of a demand for payment thereunder, the Trust Deed, the Pledge Agreements and the Notes and Coupons, but it need not take any such proceedings unless (i) it shall have been directed by an Extraordinary Resolution of the Senior Class A Noteholders or, if all

amounts due in respect of the Senior Class A Notes have been fully paid, the Mezzanine Class B Noteholders or, if all amounts due in respect of the Senior Class A Notes and the Mezzanine Class B Notes have been fully paid, the Mezzanine Class C Noteholders or, if all amounts due in respect of the Senior Class A Notes, the Mezzanine Class B Notes and the Mezzanine Class C Notes have been fully paid, the Junior Class D Noteholders or, if all amounts due in respect of the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes have been fully paid, the Subordinated Class E Noteholders and (ii) it shall have been indemnified to its satisfaction.

- (b) No Noteholder may proceed directly against the Issuer unless the Security Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.
- (c) The Noteholders and the Security Trustee may not institute against, or join any person in instituting against, the Issuer any bankruptcy, winding-up, reorganisation, arrangement, insolvency or liquidation proceeding until the expiry of a period of at least one year after the latest maturing Note is paid in full. The Noteholders accept and agree that the only remedy of the Security Trustee against the Issuer after any of the Notes have become due and payable pursuant to Condition 10 above is to enforce the Security.

12. Indemnification of the Security Trustee

The Trust Deed contains provisions for the indemnification of the Security Trustee in the circumstances set out therein and for its relief from responsibility. The Security Trustee is entitled to enter into commercial transactions with the Issuer and/or any other party to the Relevant Documents without accounting for any profit resulting from such transaction.

13. Notices

With the exception of the publications from the Reference Agent in Condition 4 and from the Issuer in Condition 6, all notices to the Noteholders will only be valid if published in the English language in at least one daily newspaper of wide circulation in the Netherlands, or, if such newspaper shall cease to be published or timely publication therein shall not be practicable, in such newspaper as the Security Trustee shall approve having a general circulation in Europe and, as long as the Notes are listed on Eurolist by Euronext Amsterdam, in the English language in the Euronext Daily Official List ("*Officiële Prijscourant*") of Euronext Amsterdam. Any such notice shall be deemed to have been given on the first date of such publication.

14. Meetings of Noteholders; Modification; Consents; Waiver

- (a) The Trust Deed contains provisions for convening separate meetings of the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders, the Junior Class D Noteholders and the Subordinated Class E Noteholders to consider matters affecting the interests, including the sanctioning by Extraordinary Resolution, of such Noteholders of the relevant Class of a change of any of these Conditions or any provisions of the Relevant Documents, provided that no change of certain terms by the Noteholders of any Class including the date of maturity of the Notes of the relevant Class, or a change which would have the effect of postponing any day for payment of interest in respect of such Notes, reducing or cancelling the amount of principal payable in respect of such Notes or altering the majority required to pass an Extraordinary Resolution or any alteration of the date or priority of redemption of such Notes (any such change in respect of any such Class of Notes referred to below as a "**Basic Terms Change**") shall be effective unless such Basic Terms Change is sanctioned by Extraordinary Resolution of the Noteholders of the relevant Class of Notes, except that, if the Security Trustee is of the opinion that such a Basic Terms Change is being proposed by the Issuer as a result of, or in order to avoid, an Event of Default, no such Extraordinary Resolution of the Noteholders of the relevant Class of Notes is required.

A meeting as referred to above may be convened by the Issuer or by Noteholders of any Class holding not less than 10 per cent. in Principal Amount Outstanding of the Notes of such Class.

The quorum for any meeting convened to consider an Extraordinary Resolution for any Class of Notes will be two-thirds of the Principal Amount Outstanding of the Notes of the relevant Class, as the case may be, and at such a meeting an Extraordinary Resolution is adopted with not less than a two-third majority of the validly cast votes, except that the quorum required for an Extraordinary Resolution including the sanctioning of a Basic Terms Change shall be at least 75 per cent. of the Principal Amount Outstanding of the Notes of the relevant Class and the majority required shall be at least 75 per cent. of the amount of the validly cast votes at such meeting relating to an Extraordinary Resolution. If at such meeting the aforesaid quorum is not represented, a second meeting of Noteholders will be held within one month, with due observance of the same formalities for convening the meeting which governed the convening of the first meeting; at such second meeting an Extraordinary Resolution is adopted with not less than a two-thirds majority of the validly cast votes, except that for an Extraordinary Resolution including a sanctioning of a Basic Terms Change, the majority required shall be 75 per cent. of the validly cast votes, regardless of the Principal Amount Outstanding of the Notes of the relevant Class then represented, except if the Extraordinary Resolution relates to the removal and replacement of any or all of the managing directors of the Security Trustee, in which case at least 30 per cent. of the Notes of the relevant Class should be represented.

No Extraordinary Resolution to sanction a change which would have the effect of accelerating or extending the maturity of a Class of Notes, or any date for payment of interest thereon, increasing the amount of principal or the rate of interest payable in respect of a Class of Notes, shall take effect unless it shall have been sanctioned by an Extraordinary Resolution of the holders of all Notes ranking junior to the Most Senior Class of Notes.

An Extraordinary Resolution of the Mezzanine Class B Noteholders and/or the Mezzanine Class C Noteholders and/or the Junior Class D Noteholders and/or the Subordinated Class E Noteholders shall only be effective when the Security Trustee is of the opinion that it will not be materially prejudicial to the interests of the Senior Class A Noteholders and/or, as the case may be, the Mezzanine Class B Noteholders and/or, as the case may be, the Mezzanine Class C Noteholders and/or the Junior Class D Noteholders or it is sanctioned by an Extraordinary Resolution of the Senior Class A Noteholders or, as the case may be, the Class B Noteholders and/or, as the case may be, the Mezzanine Class C Noteholders or, as the case may be, the Junior Class D Noteholders. The Trust Deed imposes no such limitations on the powers of the Senior Class A Noteholders, the exercise of which will be binding on the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders, the Junior Class D Noteholders, and on the Subordinated Class E Noteholders irrespective of the effect on their interests.

Any Extraordinary Resolution duly passed shall be binding on all Noteholders of the relevant Class (whether or not they were present at the meeting at which such resolution was passed).

- (b) The Security Trustee may agree, without the consent of the Noteholders, to (i) any modification of any of the provisions of the Relevant Documents which is of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification (except if prohibited in the Relevant Documents), and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Relevant Documents which is in the opinion of the Security Trustee not materially prejudicial to the interests of the Noteholders, provided that (i) the Security Trustee has notified S&P, Moody's and Fitch and (ii) S&P, Moody's and Fitch have confirmed that the then current rating of the Notes will not be adversely affected by any such modification, authorisation or waiver. For the avoidance of doubt, any such confirmation from S&P, Moody's and Fitch does not address whether such modification, authorisation or waiver is in the best interests of, or prejudicial to, some or all of the Noteholders. Any such modification, authorisation or waiver shall be binding on the Noteholders and, if the Security Trustee so requires, such modification shall be notified to the Noteholders in accordance with Condition 13 as soon as practicable thereafter.

- (c) In connection with the exercise of its functions (including but not limited to those referred to in this Condition) the Security Trustee shall have regard to the interests of the Senior Class A Noteholders and the Mezzanine Class B Noteholders and the Mezzanine Class C Noteholders and the Junior Class D Noteholders and the Subordinated Class E Noteholders each as a Class and shall not have regard to the consequences of such exercise for individual Noteholders and the Security Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders.

15. Replacements of Notes and Coupons

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the office of the Paying Agent upon payment by the claimant of the expenses incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered, in the case of Notes together with all unmatured Coupons appertaining thereto, in the case of Coupons together with the Note and all unmatured Coupons to which they appertain ("*mantel en blad*"), before replacements will be issued.

16. Governing Law

The Notes and Coupons are governed by, and will be construed in accordance with, the laws of the Netherlands. Any legal action or proceedings arising out of or in connection with the Notes and Coupons, shall be irrevocably submitted by the Issuer to the jurisdiction of the District Court in Amsterdam, the Netherlands. This submission is made for the exclusive benefit of the holders of the Notes and the Security Trustee and shall not affect their right to take such action or bring such proceedings in any other courts of competent jurisdiction.

THE GLOBAL NOTES

Each Class of Notes shall be initially represented by (i) in the case of the Senior Class A Notes a temporary global note (the "**Temporary Global Note**") in bearer form, without coupons, in the principal amount of euro 2,095,500,000 (ii) in the case of the Mezzanine Class B Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 44,000,000, (iii) in the case of the Mezzanine Class C Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 31,900,000, (iv) in the case of the Junior Class D Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 28,600,000 and (v) in the case of the Subordinated Class E Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 40,700,000. Each Temporary Global Note will be deposited with a common depository for Euroclear Bank S.A./N.V., as operator of the Euroclear System ("**Euroclear**"), and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**") on or about 26 October 2006. Upon deposit of each such Temporary Global Note, Euroclear and Clearstream, Luxembourg, as the case may be, will credit each purchaser of Notes represented by such Temporary Global Note with the principal amount of the relevant Class of Notes equal to the principal amount thereof for which it has purchased and paid. Interests in each Temporary Global Note will be exchangeable (provided certification of non-US beneficial ownership by the Noteholders has been received) not earlier than 40 days after the issue date of the Notes (the "**Exchange Date**") for interests in a permanent global note (each a "**Permanent Global Note**"), in bearer form, without coupons, in the principal amount of the Notes of the relevant Class (the expression "**Global Notes**" meaning the Temporary Global Notes of each Class and the Permanent Global Notes of each Class and the expression "**Global Note**" means any of them, as the context may require). On the exchange of a Temporary Global Note for a Permanent Global Note of the relevant Class, the Permanent Global Note will remain deposited with the common depository.

The Global Notes will be transferable by delivery. Each Permanent Global Note will be exchangeable for Definitive Notes only in the circumstances described below. Such Definitive Notes shall be issued in denominations of euro 100,000 or, as the case may be, in the then Principal Amount Outstanding of the Notes on such issue date. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note will be entitled to receive any payment made in respect of that Note in accordance with the respective rules and procedures of Euroclear or, as the case may be, Clearstream, Luxembourg. Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes, which must be made by the holder of a Global Note, for so long as such Global Note is outstanding. Each person must give a certificate as to non-US beneficial ownership as of the date on which the Issuer is obliged to exchange a Temporary Global Note for a Permanent Global Note, which date shall be no earlier than the Exchange Date, in order to obtain any payment due on the Notes.

For so long as any Notes are represented by a Global Note, such Notes will be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as appropriate.

For so long as all of the Notes are represented by the Global Notes and such Global Notes are held on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg (as the case may be) for communication to the relevant accountholders rather than by publication as required by Condition 13 (provided that, in the case any publication required by a stock exchange, that stock exchange agrees or, as the case may be, any other publication requirement of such stock exchange will be met). Any such notice shall be deemed to have been given to the Noteholders on the seventh day after the day on which such notice is delivered to Euroclear and/or Clearstream, Luxembourg (as the case may be) as aforesaid.

For so long as the Notes of a particular Class are represented by a Global Note, each person who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular principal amount of that Class of Notes will be treated by the Issuer and the Security Trustee as a holder of such principal amount of that Class of Notes and the expression "**Noteholder**" shall be construed accordingly, but without prejudice to the entitlement of the bearer of the relevant Global Note to be paid principal thereon and interest with respect thereto in accordance with and subject to its

terms. Any statement in writing issued by Euroclear or Clearstream, Luxembourg as to the persons shown in its records as being entitled to such Notes and the respective principal amount of such Notes held by them shall be conclusive for all purposes.

If after the Exchange Date (i) the Notes become immediately due and payable by reason of accelerated maturity following an Event of Default, or (ii) either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business and no alternative clearance system satisfactory to the Security Trustee is available, or (iii) as a result of any amendment to, or change in the laws or regulations of the Netherlands (or of any political sub-division thereof) or of any authority therein or thereof having power to tax, or in the interpretation or administration of such laws or regulations, which becomes effective on or after 26 October 2006, the Issuer or Paying Agent is or will be required to make any deduction or withholding on account of tax from any payment in respect of the Notes which would not be required were the Notes in definitive form, then the Issuer will, at its sole cost and expense, issue:

- (i) Senior Class A Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Senior Class A Notes; and
- (ii) Mezzanine Class B Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Mezzanine Class B Notes; and
- (iii) Mezzanine Class C Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Mezzanine Class C Notes; and
- (iv) Junior Class D Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Junior Class D Notes; and
- (v) Subordinated Class E Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Subordinated Class E Notes,

in each case within 30 days of the occurrence of the relevant event, subject in each case to certification as to non-US beneficial ownership.
